COMMERCIAL SEARCH REVIEW & REPRODUCTION

Record Description:

FREEDOM OF INFORMATION ACT REQUEST

Hello,

We are looking to understand how the government (specifically the DOE) has entered into contracts with suppliers of photovoltaics.

A recent installation for the DOE was completed, of which we would like to see the form of the contract to make sure our contracts match this form.

The contract is for a project called the Mesa Top PV Project for the U.S. Department of Energy (DOE) contracted with Sunedison, LLC. The solar energy system is at the Department's National Renewable Energy Laboratory (NREL) in Golden Colorado. The project was announced in October 2007, and was completed in December 2008, so the contract(s) was likely completed in late 2007 or early 2008.

We will pay any search fees required.
