Record Description:

I would like to receive information concerning regarding remediated sites at the Monument Valley UMTRA site. These sites include MV-001, MV-002, MV-022 and MV-023. Likewise, I would like to receive the Radiological Engineering Assessment and a Completion Report for all four properties.

In regards to the same issue, if there is any information cocnerning the remediation of the nearby Monument No. 2 mine, any information concerning such remediation would be appreciated.

Preferred Form or Format: CD

Type of Requester (if provided):

Affiliated with a private corporation and seeking information for the use in the company's business.

Fees and Fee Waivers:

I request a waiver or reduction of fees.

Waiver or Reduction of Fees Factors (if provided):

1. The subject of the request: Whether the subject of the requested records concerns "the operations or activities of the government."

Determine what remediation activities the federal government or tribal government has performed on the properties

2. The informative value of the information to be disclosed: Whether the disclosure is "likely to contribute" to an understanding of government operations or activities.

This information will clarify what government remediation has been performed at the site under federal law

3. The contribution to an understanding by the general public of the subject likely to result from disclosure, taking into account your ability and intent to disseminate the information to the public in a form that can further understanding of the subject matter.

This information can be helpful to inform the public the extent of government cleanup of

Vera

these sites and extent of additonal required cleanup. Depending on information, this information may likely be disseminated to not only regulated community, but also to general public.

4. The significance of the contribution to public understanding: Whether the disclosure is likely to contribute "significantly" to public understanding of government operations or activities.

Such disclosure would clarif public perception of the actual contamination present at the site and steps the government has taken to cleanup the sites

5. The existence and magnitude of a commercial interest: Whether the requester has a commercial interest that would be furthered by the requested disclosure, and, if so

There is an extremely significant commercial interest that may be achieved by the disclosure of this information.

6. The primary interest in disclosure: Whether the magnitude of the identified commercial interest of the requester is sufficiently large, in comparison with the public interest in disclosure, that disclosure is "primarily in the commercial interest of the requester."

The commercial interest is sufficiently large, although the potential for public interest is also high.

Expedited Processing:

Specific Justification for Expedited Processing:
