Dear Ms. Jeter-White:

Pursuant to the provisions of the Freedom of Information Act, I hereby request any documents concerning the testing, deployment, evaluation or dismantlement of the W-48 (also known as the W48) nuclear artillery shell.

I limit my request to any documents dated 1967, 1968 or 1969. However, I would like documents on dismantlement from subsequent years as well.

I would like to have a search done of DOE HQ, the Livermore Site Office, the Pantex Site Office, and the Sandia Site Office.

For your reference, my primary interest is documents describing the testing of a W-48 shell in Southeast Asia (Vietnam or Laos) in the 1968 timeframe.

This is a noncommercial request by an individual for noncommercial research and study purposes. I agree to pay up to $35 for costs if necessary.

Should you find responsive documents, I limit my request to only the first 10 pages of each responsive document.

Sincerely,

Michael Ravnitzky
