# OWIP Overview

## State Energy Program (SEP)

Provides grants to states and directs funding to state energy offices from technology programs in DOE's Office of Energy Efficiency and Renewable Energy. States use grants to address their energy priorities and program funding to adopt emerging renewable energy and energy efficiency technologies.

## Energy Efficiency Conservation Block Grant (EECBG)

To assist state, local, and tribal governments in implementing strategies to:

- reduce fossil fuel emissions;
- reduce total energy use; and
- improve energy efficiency in the transportation, building, and other appropriate sectors.

## Weatherization Assistance Program (WAP)

To permanently reduce energy costs for low income families, particularly for the elderly, people with disabilities, and children, through installation of household energy-efficiency measures, while ensuring their health and safety.
