U.S. DOE OFFICE OF INDIAN ENERGY

2027 Tribal Energy Forum

Sponsorship Opportunities

March 2-4, 2027 | Pechanga Resort Casino | Temecula, California

U.S. DEPARTMENT of ENERGY | Office of Indian Energy Policy and Programs

CONNECTING:

Tribal Leaders, Government, and Industry

The U.S. Department of Energy (DOE) Office of Indian Energy is hosting its 2027 Tribal Energy Forum, bringing together Tribal Leaders, Federal and state governments, industry, and other energy partners to exchange ideas, build networks, and explore innovative solutions that advance Tribal energy interests while upholding the principles of Tribal energy sovereignty.

The Forum is a key opportunity for Tribal Leaders and members to connect with DOE and energy experts to share their energy project successes, learn how others have overcome challenges, and explore larger energy trends facing Indian County to inform individual Tribal visions and goals. By 2030, the Office of Indian Energy Strategic Plan aims to support 450 Tribe-led energy and infrastructure projects, deliver more than $2 billion in cumulative energy cost savings, and install 100 megawatts of new energy generation capacity for Tribal communities.

2027 FORUM:

Powering Energy Sovereignty, Leadership in Action

The theme for the 2027 Tribal Energy Forum is *Powering Energy Sovereignty, Leadership in Action*. Keynote speakers, breakout sessions, and networking opportunities are designed to support attendees in addressing four energy challenges facing Tribal Nations:

- Improving electricity access, costs, and service for Tribal communities
- Investing in Tribal energy workforce development and the next generation of Tribal energy leaders
- Unlocking the energy wealth of Tribal Nations and reducing red tape to facilitate public-private partnerships
- Strengthening communications and engagement between Tribes and other energy partners

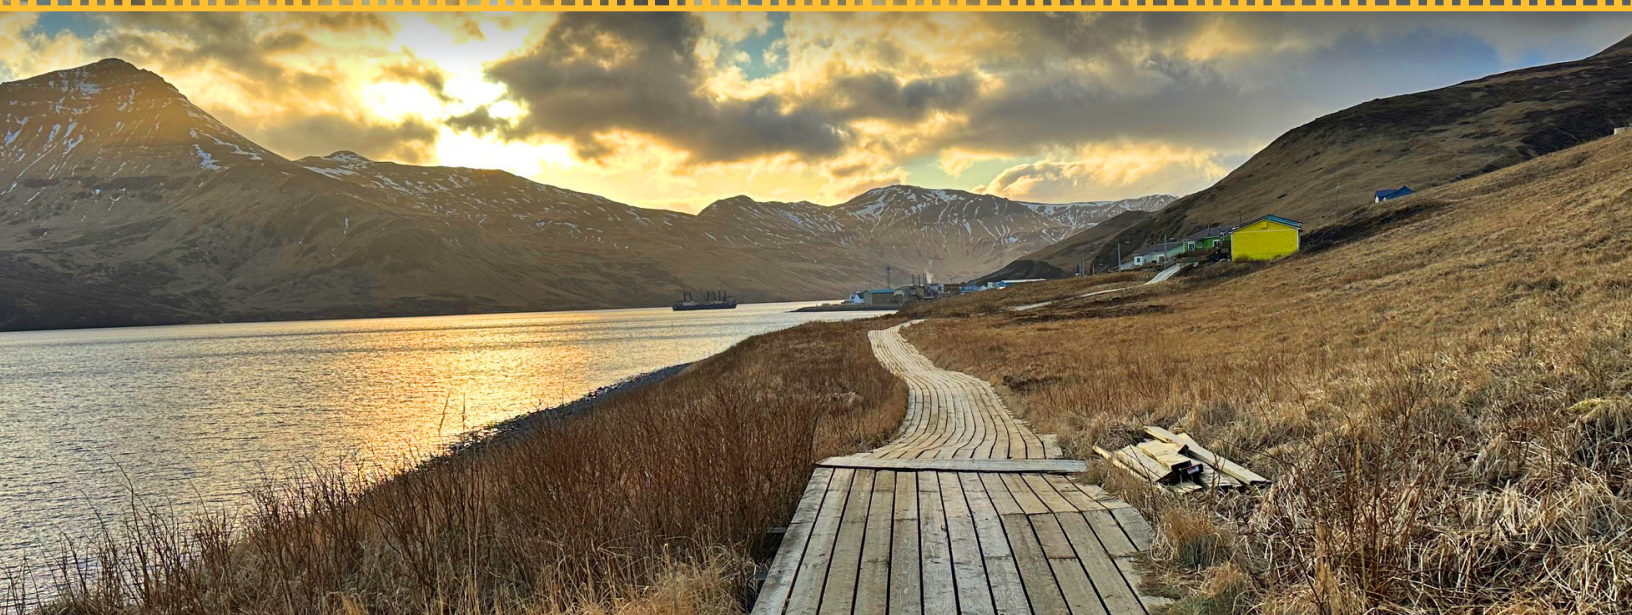
ENGAGE:

Benefits of Sponsorship

Sponsoring the 2027 Tribal Energy Forum enables your organization to connect with the Tribal Leaders, experts, and government representatives who are securing innovative solutions that will advance Tribal interests while upholding the principles of Tribal energy sovereignty.

Sponsoring the 2027 Tribal Energy Forum affords meaningful opportunities for:

- **Brand Recognition:** Establish your organization as a leading partner in solving complex energy challenges facing Tribal Nations.
- **Public-Private Partnership Development:** Connect with new prospects, Tribal decision-makers, and government resources to identify partnership projects and increase future business opportunities.
- **Thought Leadership:** Communicate your organization's priorities and expertise, raising awareness on how your efforts benefit Tribal communities, and organizations.
- **Relationship Building:** Have solution-oriented, actionable discussions with Tribal Leaders and Tribal energy partners.
- **Workforce Development:** Position your organization to fulfill future workforce needs and support the next generation of Tribal energy leaders.



COLLABORATE:

Who You'll Meet

The 2027 event is expected to welcome more than 1,000 attendees, including Tribal Leaders and representatives from Federal agencies, state governments, private industry, utilities, and academia. At #TEF27, we anticipate:

150+
Tribal Nations and Tribal organizations represented

1,000
