Mr. Robert Kerns

Dear Mr. Kerns:

Thank you for your April 10, 2009, letter to the U.S. Department of Energy (DOE). I am very pleased to hear of your interest in the Energy Efficiency and Conservation Block Grant (EECBG) Program.

As this is the first year that the EECBG Program has been funded and is being administered by DOE, I am not able to provide you with a successful or winning grant application submitted by an Indian tribe. However, DOE has developed a model Attachment D: Energy Efficiency and Conservation Strategy (EECS) for an Indian tribe, which you'll find attached. The submission of an EECS is a requirement of the EECBG Program, and this model will provide guidance on the length, level of detail, and types of activities that DOE will be looking for. You will find additional model application materials, as well as a host of other resources, on the EECBG website at http://www.eecbg.energy.gov. In particular, the site's *Solution Center* is designed to help eligible grantees develop energy efficiency projects and programs that meet the conditions and guidelines of the EECBG Program. Please visit http://www.eecbg.energy.gov/solutioncenter/default.html to access best practices, information resources, and our EECBG webcast series, including our upcoming EECBG Strategy Planning and Development Webinar specifically tailored to Indian tribes, scheduled for Friday, June 12th, 3:00-4:30PM EST.

Thank you again for your inquiry, and if you need additional information, please contact me, at (202) 287-1649.

Sincerely,

Marion Lunn
