Project Title: Installation of a Ballymore Ladder at Sampling Location 4MC-002F

Program or Field Office: Savannah River Site

Location(s) (City/County/State): Aiken/Aiken/South Carolina

Proposed Action or Project Description:
Sampling Location 4MC-002F requires pedestrian negotiation of a steep creek bank covered in riprap. The uneven footing associated with the riprap is a significant slip/trip/fall safety hazard. Installation of a Ballymore Ladder to access the sampling location is proposed to eliminate the safety hazard. The creek bank end of the ladder will be secured by bolting it to two sign posts driven into the ground on top of the creek bank. The stream end of the ladder will be secured by pushing the ladder rails into the stream bottom.

Categorical Exclusion(s) Applied:

B2.3 - Personnel safety and health equipment
