Record Description:

Internal technical reports for DOE Grand Junction office with radiological monitoring data for the buildings on the site for the years 1984 through 1992. I believe documents were entitled Annual Site Environmental Monitoring Reports, and were prepared by Bendix Field Engineering Corporation (1984 - 1986), UNC Geotech (1987-1991) and Rust Geotech (1992). I am specifically looking for annual radiological monitoring data (ambient air and wipe samples) for Building 7.
