SUBJECT INDEX

The Subject Index lists articles by topic. Several extremely broad first-level keywords (such as "document preparation," "mini-guidance," and "process, NEPA") have been eliminated and the subtopics that were under them are now first-level keywords. Articles that were formerly indexed under "EISs/documents, DOE," "EAs/documents, DOE," "Litigation, DOE," and "Litigation, Other Agency" have been moved into separate sections, as described below.

LITIGATION INDEX

The Litigation Index lists articles that report on DOE's and other agencies' NEPA litigation. Each DOE case is listed as appropriate to reflect the challenged proposal, that is, one or more of: a specific facility (Fast Flux Test Facility), generic facility (biological research laboratories), program (energy efficiency standards), or activity (transuranic waste shipment). Articles on other agency NEPA cases are listed under name of the principal defendant agency.
