January 25, 2012

MEMORANDUM FOR: **SEAN A. LEV, ACTING, DOE-GC-1**

FROM: **TRACY A. RIBEIRO, NATIONAL ENVIRONMENTAL POLICY ACT (NEPA) COMPLIANCE OFFICER, LM** Tracy A. Ribeiro

SUBJECT: Annual NEPA Planning Summary

Attached is the Annual NEPA Planning Summary for the U.S. Department of Energy, Office of Legacy Management (DOE-LM). No Environmental Assessments (EAs) are planned or ongoing for the 2012–2013 period. DOE-LM is not a cooperating agency on other agencies' EAs or environmental impact statements (EISs).

DOE-LM is preparing a programmatic EIS on the Uranium Leasing Program, and information on the Programmatic Environmental Impact Statement is provided in the attached table.

Please contact me at (970) 248-6621 if you need further information. Please send any correspondence to:

APS Excel Spreadsheet Directions

- Please download the spreadsheet file and save it to your computer.
- Use the tabs at the bottom of the page to move between this instruction page and the spreadsheet pages for EAs, EISs, and MAPs
- Only type the necessary data into the empty cells.
- If more documents need to be listed, insert more blocks of rows.
- If a DOE NEPA document number has been assigned, include that number in the first column after the title and location.
- Use the last several rows on the EIS spreadsheet to report on the status of **supplement analyses**. When reporting on a supplement analysis, please indicate the DOE NEPA document number for the associated EIS.

- In the NEPA milestones column, please include projected milestone dates, if planned. Note that the **EA, EIS, or SA determination date** is the date when DOE made or expects to make its formal determination to conduct this type of NEPA review.

- Enter the various costs of the EISs and EAs as complete numbers (for example, $50,000, not $50K). As you enter the various costs, the spreadsheet will calculate the total cost for you. (Nothing needs to be done to the "total estimated cost" cell.)

- If a NEPA document that was reported on the previous year's APS was subsequently renamed, please include any former project names and the DOE NEPA document numbers in the description field. If a NEPA document reported in the previous year's APS was cancelled, please list it, and use the description field to indicate its cancellation status.

- Use the MAP spreadsheet to report the progress of implementation for mitigation commitments included in RODs or FONSIs for completed documents. If additional annual NEPA planning summary reports need to be listed, insert more rows.
- Be sure to edit the spreadsheets and page footers to include the name of the program office or field organization.

Updated 2011 APS templates (December 2010)
