

Memorandum

To United States Department of Energy

From Benjamin Longstreth, Natural Resources Defense Council

Date November 4, 2014

Re Ex Parte Communication

On Tuesday, October 28, 2014, several representatives of fan manufacturers and energy efficiency advocates met with the Department of Energy to discuss potential standards for commercial and industrial fans.

The fan manufacturers and energy efficiency advocates presented information concerning the fan market, fan energy-efficiency and the most promising means of designing federal efficiency standards for commercial and industrial fans. The attached slides were presented at the meeting.

The following individuals were present or on the telephone:

John Cymbalsky, DOE
Dan Cohen, DOE
Andrew deLaski, ASAP
Wade Smith, AMCA International
Marc Bublitz, New York Blower Company
Tom Catania, University of Michigan
Benjamin Longstreth, NRDC

Via telephone:
Joanna Mauer, ASAP (via telephone)
Louis Starr, NEEA
Meg Waltner, NRDC

Respectfully submitted,

s/ Benjamin Longstreth
Natural Resources Defense Council
