The purpose of this Modification is to issue a change order for transition of the Outfall 200 project site responsibility requirements from Aptim Northwind, LLC to UCOR effective 4:31PM on November 16, 2023 and to attach Subtask 9-2: Outfall 200 MTF, Subtask 2a – Initial Site Responsibility, Procurements, and Construction Activities. UCOR is authorized not-to-exceed costs in the amount of \$5,000,000 for this change.

Modification Definitization

- a) In accordance with FAR 52.243-6, Change Order Accounting, DOE requires separate accounting for the incurred costs for this effort.
- b) In accordance with FAR 52.243-4, Changes, if the above changes cause an increase or decrease in the estimated cost of, or the time required for, performance of any part of the work under this Task Order, whether or not changed by the order, or otherwise affects any other terms and conditions of this Task Order, the Contracting Officer shall make an equitable adjustment in the firm-fixed price or schedule, or both; and other affected terms.
- d) The Contractor agrees to begin promptly negotiating with the Contracting Officer the terms of a definitive modification for the work directed under this modification.

If agreement on a definitive modification is not reached by the target date, or within any extension granted by the Contracting Officer, the Contracting Officer may, with the approval of the Head of Contracting Activity, determine a reasonable price or fee in accordance with Subpart 15.4 and Part 31 of the FAR, subject to Contractor appeal as provided in the Disputes clause.

As a result of this modification, the following definitization schedule applies:

Action	<u>Date</u>
Change Order_issued	11/15/2023
Receive Proposal(s)*	12/15/2023
Commence negotiations	02/28/2024
Complete negotiations	03/21/2024
Execute definitization modification	03/31/2024

^{*}Multiple proposals may be considered to definitize this action. All proposals are to be received by 12/15/2023.

e) Proposal instructions are as follows:

The Subtask Proposal shall include the following:

(1) Discussion of the technical approach for performing the work;

- (2) Date of commencement of work and any necessary revision to the schedule of performance stipulated by the Government;
- (3) A fragnet of the detailed resource-loaded schedule for that Subtask's scope of work. The Contractor shall also provide a copy of the Draft Integrated Master Schedule (*Draft Deliverable T9-2-002*) showing the inclusion of the proposed Subtask scope of work and identifying the logic ties and dependencies between already contracted Subtask scopes of work and the new Subtask work scope. Both the schedule fragnet and the IMS schedules submitted as part of the Subtask proposal must meet EVMS requirements (including required Subtask baseline submission *Draft Deliverable T9-2-001* representing the cost, schedule, and entire scope over the period of performance of the associated Subtask);
- (4) The Contractor shall submit the Subtask proposal in accordance with FAR Part 15, Table 15-2 Instructions for Submitting Cost/Price Proposals When Certified Cost or Pricing Data Are Required. If the value of the Subtask Proposal does not exceed the threshold for certified cost or pricing data, the CO may require information other than cost or pricing data, including information related to prices and cost that would otherwise be defined as cost or pricing data if certified. Information other than cost or pricing data may be submitted in the Contractor's own format. Additionally, the Contractor shall utilize the rates included in the FY 2023 Labor Rates Revision 1 Mid-Year Update for applicable labor categories;
- (5) WBS Dictionary Sheets/Basis of estimate through DOE WBS Level 7 with a data column which cross references the WBS elements at the lowest level to the appropriate Contract Line Item Number (CLIN)/Sub-CLIN and PWS subsection:

DOE WBS Level 7/PWS C.5.6.1, OF200 MTF Construction Support (CLIN 000392a)

- (6) Time-phased cost estimate for the Subtask period of performance, summarized and detailed consistent with the WBS Dictionary/Basis of Estimate;
- (7) Subtask proposals shall comply and be in accordance with FAR Part 31 Contract Cost Principles and Procedures;
- (8) Proposed deviations (if any) from the stated Performance Work Statement requirements;
- (9) Contractor's proposed fee or profit, which must adhere to the criteria within DOE-B-2015 Task Order Fee/Profit Ceiling (Oct 2014) (Revised); and
- (10) Any other information required to determine the reasonableness of the Contractor's proposal.

(11) The Subtask Proposal shall include separate small business subcontracting goals that afford small businesses with the maximum practicable opportunity to participate in efficient Subtask performance.

For each Subtask, the Contractor shall propose separate small business subcontracting goals for small business categories as a percent of total subcontracted dollars (excluding government furnished costs for Reservation Management and Post-Retirement Medical Benefits, Long-Term Disability, and Pension Contribution; and site usage fees provided to other site contractors). The proposed small business goals for this Subtask shall be aligned with the Contractor's Master Small Business Subcontracting Plan, and support the achievement of the requirements of the Section H clause *Subcontracted Work* and FAR 52.219-9 *Small Business Subcontracting Plan*. If the scope of the Subtask is not conducive to establish or achieve the small business goals for each small business category identified in Table H-3, the Contractor shall submit to the CO for approval, the justification for the proposed small business category percentages for that specific Subtask.

Table H-3. Small Business Goals

Small Business Category	Small Business Goals as a percent of total subcontracted dollars
mall Businesses (categories below are subsets within this category)	45%
Veteran-Owned Small Business (VOSB)	3%
Service-Disabled Veteran-Owned Small Business (SDVOSB)	3%
Historically Underutilized Business Zone (HUBZone)	3%
Small Disadvantaged Business	5%
Women-owned Small Business	5%

^{*} The small business subcategories may not necessarily add up to the overall percentage in the Small Business category, since some small businesses may not fall into any of the subcategories, while others may fall into more than one subcategory.

EXAMPLE:

Contractor plans to subcontract 67% of the Task Order value with a goal of 45% of that subcontract to be issued to Small Businesses. This would equate to 30% of the total Subtask value being issued to a Small Business.

Section B – Supplies or Services and Prices/Costs

This Subtask work shall be performed under Contract Line Item Number (CLIN)-00003 of the Oak Ridge Reservation Cleanup Contract (ORRCC) Master Indefinite Delivery/Indefinite Quantity (IDIQ) Contract (herein referred to as the Master IDIQ Contract). Section B of the Master IDIQ Contract and Task Order 89303322DEM000067/89303523FEM400032 is incorporated by reference.

B.1 DOE-B-2012 Supplies/Services Being Procured/Delivery Requirements (Oct 2014)

The Contractor shall furnish all personnel, facilities, equipment, material, supplies, and services (except as may be expressly set forth in this Subtask as furnished by the Government) and otherwise do all things necessary for, or incidental to, the performance of work as described in Section C, Performance Work Statement under this Subtask.

B.2 Type of Subtask

(1) TBD

(3) Payment of fee will be made in accordance with Clause I.228, DEAR 970.5232-2, Payment and Advances (Dec 2000) – Alt I (Dec 2000), Alt II (Dec 2000) and Alt III (Dec 2000) (DEVIATION) of the Master IDIQ Contract.

B.9 Basis for Change

In accordance with Clause B.9 *Basis for Change*, the identification of fee risk ownership for both the Government and the Contractor is set forth in Appendix B.9.

B.12 Performance Management Incentive

In accordance with Clause B.12, *Performance Management Incentive*, of the Master IDIQ Contract, Performance Management Incentive is applicable to Subtask 9-2a.

Section C – Performance Work Statement

C.1 Subtask Requirements

The Contractor shall perform the requirements in accordance with the Master IDIQ Contract

and Task Order 89303322DEM000067/89303523FEM400032 and the information included below:

PERFORMANCE BASED STATEMENT OF WORK Subtask 9-2: OF200 MTF, Subtask 2 – Construction and Commissioning End State

1.0 INTRODUCTION

This is an end states Subtask. The desired outcome for *Mission Support Facility – OF200 MTF Line Item* is successful commissioning and subsequent reliable operations of the Outfall (OF) 200 Mercury Treatment Facility (MTF) as described in Master IDIQ and Task Order 89303322DEM000067/89303523FEM400032 Section C.5.6.

The OF200 MTF is designed to treat up to 3,000 gallons of surface water per minute and store two million gallons of excess stormwater. It will be comprised of two components at two locations — a headworks facility and a treatment plant— connected by a pipeline nearly a mile long. The headworks facility will capture creek flow, store excess stormwater collected during large rainfalls, remove grit, and pump water through the pipeline to the treatment plant. The treated water will then flow back into the creek.

The OF200 MTF is a line-item construction project (Line Item 14-D-403) with an approved performance baseline. The project will not meet an element of the current Performance Baseline. A performance baseline change is expected to be approved in the third quarter of FY2024.

The OF200 MTF construction was initiated under another DOE Prime contract that expires on December 25, 2023, and will not be extended. Operational responsibility for the OF200 MTF Site will be assigned to the ORRCC Contractor in November 2023 to enable the completion of the remaining OF200 MTF construction by the ORRCC Contractor.

The desired outcome for *Mission Support Facility – OF200 MTF Line Item* will be achieved in two Subtask phases that will be negotiated and awarded in increments as described in Section 3.0, *Scope*. The Subtask phases include:

- Subtask 9-2a (*Term*): Initial Site Responsibility, Procurements, and Construction Activities (*current request for proposal*) This Subtask is planned to immediately follow receipt of the construction transition package from the DOE's Prime Contractor and the ORRCC Contractor's acceptance of operational responsibility for the OF200 MTF facility site and will continue until the start of Subtask 9-2b activities.
- Subtask 9-2b (*End State*): Construction and Commissioning End State This Subtask will complete the desired outcome for *Mission Support Facility OF200 MTF Line Item* and will be included in a future request for Subtask 9-2b proposal.

Task Order No. 89303322DEM000067/89303523FEM400032
Attachment J-15-3-09-2
Page 7 of 22

Master IDIQ Section C.5.6.3, *MTF Operations* will also be included in a future request for Subtask proposal. The Contractor shall ensure this Subtask scope is integrated with the awarded Subtask 9-1 and with other Subtasks, as necessary.

2.0 BACKGROUND

Historical missions at the Y-12 National Security Complex (Y-12) resulted in the release of mercury to the environment. The West End Mercury Area (WEMA) consists of former mercury-use buildings Beta-4 (9204-4), Alpha-4 (9201-4), and Alpha-5 (9201-5) located in the west end of the Y-12 main plant area including mercury-contaminated soils and storm sewers in the immediate vicinity. Residual mercury in the 60-year-old storm drain infrastructure, infiltrating groundwater, and sediment-bound mercury are remobilized and transported through the storm drain network to OF200 into the Upper East Fork Poplar Creek (UEFPC). Currently, this is the largest environmental risk on the DOE Oak Ridge Reservation.

The primary pathway of concern is surface water because the UEFPC flows directly from Y-12 into the City of Oak Ridge. Discharges from WEMA are the primary point source contributors to mercury flux in UEFPC. OF200 is the integration point for storm sewer effluent entering UEFPC and, under dry weather (base) flow conditions, is the largest single source of mercury to the creek. The OF200 MTF will remove a significant portion of mercury contamination in these discharges.

The OF200 MTF construction is part of CERCLA actions to reduce mercury levels in East Fork Poplar Creek. The objective is compliance with ambient water quality criteria and assistance in controlling mercury discharges during cleanup of the West End Mercury Area.

3.0 SCOPE

The Contractor shall perform the scope of work and requirements in accordance with the Section C PWS sections and subsections of the Master IDIQ Contract and Task Order 89303322DEM000067/89303523FEM400032 identified below:

- C.5.6 Outfall 200 Mercury Treatment Facility (Y-12)
 - C.5.6.1, MTF Construction Support

Subtask 9-2a: OF200 MTF, Subtask 2a – Initial Site Responsibility, Procurements, and Construction Activities

The desired outcome of Subtask 9-2a includes completion of all activities necessary to continue progress on the MTF construction through the start of Subtask 9-2b activities.

Task Order No. 89303322DEM000067/89303523FEM400032
Attachment J-15-3-09-2
Page 8 of 22

For the scope of work performed under Master IDIQ and Task Order 89303322DEM000067/89303523FEM400032 PWS sections and subsections listed in the Scope, the Contractor shall incorporate the following assumptions and completion objectives into Subtask 9-2a:

- Complete training of the OF200 MTF construction workforce;
- Maintain operational responsibility for the OF200 MTF site which includes responsibility for integrating and coordinating site activities with the Y-12 Operating Contractor, effective 4:31 pm, November 16, 2023. This includes obtaining any necessary approvals (i.e., Traffic Control Plans).
- Complete development and implementation of all required plans, programs, procedures, excavation permits, and work packages for remaining construction; and,
- Procure all necessary services, materials, and equipment for site maintenance and to ensure continued progress on construction activities
- Resume and execute key construction activities.
- Provide all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items and non-personal services to complete the work scope.
- Ensure the effective performance of all activities necessary to execute the Subtask 9-2a scope which includes but is not limited to the following: technical management, project controls, scheduling and action tracking, estimating, procurement support, administrative support, subcontract oversight, regulatory and environmental compliance, quality assurance, risk management, safety and health, radiation protection, worker training, non-emergency fire protection, and records management.
- Provide supporting documents and participate, as necessary, in DOE O
 413.3B reviews

Assume:

- All procurements for maintenance and construction activities will be in accordance with the latest approved set of drawings and specifications.
- o UCOR will utilize existing agreements with CNS to obtain any required CNS support for construction and maintenance.
- Memoranda of Agreements (MOAs), Memoranda of Understanding (MOUs), Work Packages, and subcontracts needed for Subtask 9-2a

will be developed and in place prior to the start of the applicable Subtask 9-2a activity.

4.0 APPLICABLE DIRECTIVES

In addition to the Directives included in the Master IDIQ Contract, additional Directives are included in Attachment J-2-9 to this Subtask.

5.0 INTERFACES

In addition to the Interfaces included in the Master IDIQ Contract, additional Interfaces are included in Attachment J-3-9 to this Subtask.

6.0 DELIVERABLES

In addition to the Deliverables included in the Master IDIQ Contract, additional Deliverables are included in Attachment J-7-9 to this Subtask.

7.0 GOVERNMENT-FURNISHED SERVICES AND INFORMATION

In addition to the Government-Furnished Services and Information (GFS/I) included in the Master IDIQ Contract, additional GFS/I are included in Attachment J-8-9 to this Subtask.

8.0 PERFORMANCE OBJECTIVES AND STANDARDS

Fee will be determined upon completion of the End State requirements in Section 3.0 and work scope/completion criteria as follows:

Oak Ridge Reservation Cleanup Contract (ORRCC)

Subtask 9-2a, OF200 MTF Subtask 2a – Initial Site Responsibility, Procurements, and Construction Activities				
End State Requirement Complete all activities necessary to continue progress on the MTF construction through the start of Subtask 9-2b activities.	 Work Scope/Completion Criteria Complete training of the OF200 MTF construction workforce. Maintain operational responsibility for the OF200 MTF site which includes responsibility for integrating and coordinating site activities with the Y-12 Operating Contractor. This includes obtaining any necessary approvals (i.e., Traffic Control Plans). Complete development and implementation of all required plans, programs, procedures, excavation permits, and work packages for remaining construction. Procure all necessary services, materials, and equipment for site maintenance and to ensure continued progress on construction activities. Resume and execute key construction activities. Provide all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items and non-personal services to complete the work scope. Ensure the effective performance of all activities necessary to execute the Subtask 9-2a scope which includes but is not limited to the following: technical management, project controls, scheduling and action tracking, estimating, procurement support, administrative support, subcontract oversight, regulatory and environmental compliance, quality assurance, risk management, safety and health, radiation protection, worker training, non-emergency fire protection, and records management. Provide supporting documents and participate, as necessary, in DOE O 413.3B reviews. 			

In addition, the performance requirements, made up of objectives and respective standards, for this Subtask will be used to determine quality of performance in CPARS evaluation and PMI, as applicable. The performance objectives and standards are as follows:
