Federal Acquisition Service

Accessing GSA Schedules For Tribes

Cheryl Ansaldi
Customer Service Director
Cheryl.ansaldi@gsa.gov
303-949-8211

Federal Acquisition Service

Overview

- GSA and Federally-Recognized Tribes
 - Authorities to Use GSA
 - Descriptions of Offerings
- Alternative Energy available on GSA Schedules
- Questions

Federal Acquisition Service

Context

- Tribal Use of GSA Comes from Various Authorities
- GSA has no International or Tribal Affairs Office
 - Support to Tribes can be complex and difficult to assess
 - There is no singular subject matter expert
 - Authorities of use are diverse

GSA and Federally-Recognized Tribes

- October 16, 2012, GSA Office of Government-wide Policy:
“Our office no longer regularly handles eligibility determination requests regarding Native American Tribes and Tribal Organizations.”
- Sponsoring/Granting Agencies Verify Eligibility to Use GSA in Accordance with Applicable Authorities (BIA, HUD, IHS, USDA)

Federal Acquisition Service

The Two Primary Authorities

➤ **P.L. 93-638 Indian Self-Determination & Education Act**

- Contract Schools
- Hospitals/Clinics
- Tribal Programs
- Grant Schools (P.L. 100-297 Tribally Controlled Schools Act of 1988)
- Self-Governance Tribes (P.L. 103-413 Self-Governance Permanent Authorization)

The Two Primary Authorities

- **P.L. 110-411 Native American Housing Assistance & Self-Determination Re-Authorization Act**
 - Indian Housing Block Grant Recipients
 - Tribes
 - Tribally Designated Housing Entities (TDHEs)

Federal Acquisition Service

“Tribal entities need to comply with their own internal procurement policies when placing orders through GSA MAS vendors. For NAHASDA funds, Indian Preference applies and is subject to compliance audits by HUD. Several Indian-owned enterprises and Alaska Native Corporations are GSA MAS schedule holders and would meet the requirement of Indian Preference. Indian preference may or may not apply for BIA and IHS funds depending on what internal procurement policies a tribe has in place.”

Federal Acquisition Service

Program Offerings

- GSA Global Supply
- GSA Multiple Award Schedule Contracts
- GSA Airline CityPairs Program
- GSA Travel Program
- Excess Personal Property*
- Vehicle Leasing* and Acquisition
- GSA SmartPay2 Purchase Card Program

* Not Available to Tribes or TDHEs using NAHASDA authority/funding

GSA Multiple Award Schedule Contracts

- GSA establishes long-term, government-wide contracts with commercial firms to provide access to millions of commercial products and services at volume-discount pricing.

Why use a GSA Schedule?

- Competition requirements have been met
 - Indian Preference Still Applies
 - Best Value Determination Required
- Compliant with environmental requirements
- Discounts negotiated for you

GSA Multiple Award Schedules Program

➤ GSA's Industry Partners

- Ceiling price, IDIQ contracts with nearly 18K different vendors
- Designed to be self-service
- No cost/fee from GSA to use the Schedules

➤ Research and Use via

- GSA Advantage
- GSA E-library
- GSA E-buy for RFIs and RFQs

Source	Description
03FAC	<p>FACILITIES MAINTENANCE AND MANAGEMENT - GSA offers a vast array of innovative, customer-focused facilities products and services. Facilities Maintenance and Management, Schedule number 03FAC, is a Multiple Award Schedule that provides federal agencies a streamlined procurement device to acquire all of the services necessary to maintain and manage a facility.</p> <p>Click here to view Comprehensive Professional Energy Services</p>
Category	Description
003 01	<p>Smart Buildings Systems Integrator - Includes the comprehensive integration of building systems and technology using a non-proprietary and open architecture. Typical building systems to be integrated include: building automation, life safety, telecommunications, facilities management, security, energy and environmental control, HVAC, lighting, building envelope, access control, power management, cabling infrastructure/wireless, VOIP, video distribution, video surveillance, data network, etc. Typical integration functions include, but are not limited to: requirements analysis, strategic systems planning, system configuration, implementation alternatives, integration planning, system component acquisition, component integration, testing and analysis, interaction with Building Operations Centers, collection/manipulation of smart building component data, configuration management and control, design-guide development, operational training and support, monitoring, reporting and managing of the systems, and systems maintenance.</p>
FACILITIES MAINTENANCE AND MANAGEMENT SOLUTIONS FOR REAL PROPERTY	
Category	Description
811 003	<p>Complete Facilities Management - Services include facilities management and consulting. Services will be management duties including, but not limited to, property and facilities management, planning, scheduling, quality control software support services, and computer and/or facilities management systems. The service will include adequate staff of personnel and alternates as required, with the necessary management expertise to assure performance of the work in accordance with sound and efficient management practices. [For separate SIN requirements not part of integrated facility management systems support such as independent energy management systems, intrusion alarm systems, and guard services, see schedule 84]</p>
ENERGY MANAGEMENT, WATER CONSERVATION AND SUPPORT SERVICES	
Category	Description
871 207	<p>Energy Audit Services - Including, but not limited to, developing, executing, and reporting on audit plans and/or performing energy and water audit services. Energy audits may range from cursory to comprehensive. Including, but not limited to data collection, data analysis, benchmarking with tools such as Energy Star, and written recommendations of suggested upgrades of electrical and mechanical infrastructure, including their impact on energy consumption and pollution can include recommendations for using alternative Energy Sources. Audit services can include computerized control systems using analytical software and a network of electronic devices to assist Federal agencies with achieving energy conservation goals. Energy efficient buildings certification programs such as LEED may be included.</p>
871 211	<p>Energy Consulting Services - Contractors shall provide expert advice, assistance, guidance or counseling on energy related projects or initiatives to assist agencies in adhering to energy legislation and policy such as EPACT 2005, Executive Orders 13423 and 13514. Consulting services covered by this SIN include: ?Energy management or strategy ?Energy program planning and evaluations ?Energy related studies, analyses, benchmarking and reporting such as feasibility studies, vulnerability assessments, and energy security ?Assistance in meeting energy efficient building standards such as Leadership in Energy and Environmental Design (LEED), Green Globes and Energy Star. ?Advisory services in obtaining alternative financing for energy projects such as Energy Savings Performance Contracts, Power Purchase Agreements or Enhanced Use Leases ?Consulting on carbon emissions trading programs ?Consulting on where to obtain renewable energy credits/certificates ?Consulting on greenhouse gas measurement and management ?Strategic sustainability performance planning ? Consulting on obtaining high performance sustainable buildings ?The implementation, testing and evaluation of networked energy management systems and services that utilize Internet Protocol - Next Generation (IPv6) enabled systems</p>

BUILDINGS AND BUILDING MATERIALS/INDUSTRIAL SERVICES AND SUPPLIES - This Schedule provides a full range of commercial products and services covering such areas as buildings and building materials/industrial services and supplies. In addition, this program offers **energy** saving building supplies, **alternative energy** solutions, and related services.

FSC 62 - Solar Energy Systems, Energy Saving Lighting Products & Specialty Lighting

Category	Description
206 3	Alternative and Renewable Energy Solutions, including Solar Energy Systems and Solar Lighting, Fuel Cells, Wind Power - Including all types of solar energy products, such as prepackaged PV and solar thermal systems, solar water pumping systems, and solar water heaters; and solar lighting, including all types of solar powered lighting, such as marine, aviation, roadway, sign lighting, indoor and outdoor lighting products and accessories. Includes, but not limited to, fuel cells, hydrogen based energy systems, wind energy systems, and other environmentally friendly renewable energy generation systems. This SIN includes alternative energy portable power sources and portable lighting suitable for support of emergency and disaster recovery efforts.
412 97	Ancillary Repair and Alterations for Alternative Energy Systems, Power Generation Equipment, Generators, and Batteries Solutions - Repair and Alterations ancillary to existing SINs under this Schedule. Ancillary Repair and Alterations projects are those (1) solely associated with the repair, alteration, delivery or installation of products or services also purchased under this Schedule, and which are (2) routine and non-complex in nature, such as routine painting or resurfacing of floors, simple hanging of drywall, basic electrical or plumbing work, removal/relocation of non-load bearing walls, minor alterations to install storage systems, conveyors or conveyor systems, and similar noncomplex services. This SIN EXCLUDES: (1) major or new construction of buildings, roads, parking lots and other facilities; (2) complex R&A of entire facilities or significant portions of facilities, and (3) Architect-Engineering Services subject to Public Law 92-582 (Brooks Act). The work performed under this SIN shall be associated with existing SINs that are part of this Schedule. Ancillary Repair and Alterations shall not be the primary purpose of the work ordered but be an integral part of the total solution offered. Ancillary repair and alteration services may only be ordered in conjunction with or in support of products or services purchased under the Federal Supply Schedule contract. This SIN includes all regulatory guidance outlined in accordance with FAR 36, including the Davis Bacon Act and the Miller Act. Special Instructions: No award will be made under 412 97 Ancillary Repair and Alteration unless an offeror is awarded (or receives award concurrently) for another SIN under this Schedule. The Repair and Alteration work must be ancillary (incidental) to the primary services or products offered under the Schedule. For Federally-owned space managed by GSA's Public Building Service (PBS), approval of the PBS Building Manager must be received by the ordering activity and contractor before any repair and alteration work may be ordered. A copy of the approval must be retained by both the ordering activity contracting officer and the contractor. Owned or leased space outside the PBS inventory may also include approval requirements. A copy of the approval must be retained by both the ordering activity contracting officer and the MAS contractor performing the R&A services. This R&A SIN shall not be used for PBS leased space. Any Agency contracting officer ordering services under this SIN for Ancillary Repair and Alterations is responsible for complying with his or her agency's internal policies when procuring R&A services. This may include a specific warrant delegation for procuring construction services when the estimated amount of this portion of the task order exceeds \$2,000 (Ref. FAR 22.4). Special Notice to Ordering Agencies: GSA or other landlords may require re-performance of any nonconforming work at agency expense. If applicable, agencies may seek appropriate recourse from the contractor responsible for the nonconforming work.

TOTAL SOLUTIONS FOR LAW ENFORCEMENT, SECURITY, FACILITIES MANAGEMENT, FIRE, RESCUE, CLOTHING, MARINE CRAFT AND EMERGENCY/DISASTER RESPONSE - The Local Preparedness Acquisition Act, signed June 26, 2008, authorizes state and local governments to purchase from GSA alarm and signal systems, facility management systems, firefighting and rescue equipment, law enforcement and security equipment, marine craft and related equipment, special purpose clothing, and related services.

Category	Description
246 01	Smart Buildings Systems Integrator - Includes the comprehensive integration of building systems and technology using a non-proprietary and open architecture. Typical building systems to be integrated include: building automation, life safety, telecommunications, facilities management, security, energy and environmental control, HVAC, lighting, building envelope, access control, power management, cabling infrastructure/wireless, VOIP, video distribution, video surveillance, data network, etc. Typical integration functions include, but are not limited to: requirements analysis, strategic systems planning, system configuration, implementation alternatives , integration planning, system component acquisition, component integration, testing and analysis, interaction with Building Operations Centers, collection/manipulation of smart building component data, configuration management and control, design-guide development, operational training and support, monitoring, reporting and managing of the systems, and systems maintenance.

Alarm and Signal Systems, Facility Management Systems, Professional Security/Facility Management Services and Protective Service Occupations (Guard Services). For other types of Facilities Maintenance

Category	Description
246 53	Facility Management and Energy Solutions - Includes, but not limited to projects using appropriated funds as well as alternative financing methods through the use of Energy Savings Performance Contracts (ESPC's) in accordance with the National Energy Conservation Policy Act (NECPA) as amended by the Energy Policy Act of 2005 (EPACT). Projects include energy audits, project management, and energy upgrades of HVAC, Lighting, Controls, etc.

THE CONSOLIDATED SCHEDULE - The Consolidated Schedule provides a streamlined approach to fulfilling requirements that fall within the scope of more than one schedule for acquiring a total solution. Contractors under this schedule hold a single contract that includes two or more combined services from schedules.

Category	Description
0000 01	Consolidated Schedule - This schedule provides a streamlined approach to fulfilling requirements that fall within the scope of more than one schedule for acquiring a total solution. Contractors under this schedule hold a single contract that includes two or more combined services from schedules.

220W PHOTOVOLTAIC PANEL

Mfr Part No.: 1 STH 220
Manufacturer: 1-SOLTECH
Contract No.: GS-07F-0424W (ends: May 14, 2015)
MAS Schedule/SIN: 056/206 3
Warranty: STANDARD WARRANTY
Made In: UNITED STATES OF AMERICA
Weight: 53.000 LB
Order Increment: 1

Desc

220 Watt photovoltaic panel for generating electricity from solar energy
