

United States Department of Energy

Federal Project Director of the Year for 2015

Presented to

Mr. Frank Crescenzo

For demonstrating exceptional leadership and project management acumen as Federal Project Director for the \$912 million National Synchrotron Light Source-II (NSLS-II) Project at Brookhaven National Laboratory. Mr. Crescenzo led the NSLS-II project, the Nation's newest and most advanced light source, for more than 10 years with exemplary communication and troubleshooting skills, a sense of humor, and a seldom-matched dedication to the mission. Mr. Crescenzo provided clear and constructive guidance to the project team, without being prescriptive; empowered team members; enabled flexibility in developing solutions; and fostered an environment of open communication and cooperation. Mr. Crescenzo represents the best of DOE leadership and management—his dedication to project success and his team's exceptional performance contributed greatly to the NSLS-II project's successful completion.

Ernest J. Moniz
Secretary of Energy
