# EVOLUTION OF DOE

- \* Energy Reorganization Act of 1974
  - Established Energy Research and Development Administration (ERDA) to manage R&D for nuclear weapons, naval reactors, and energy development
  - Established Nuclear Regulatory Commission (NRC) to regulate commercial nuclear power industry
  - Brought in Office of Coal Research from the U.S. Department of the Interior to join ERDA
  - DOE was finally established on October 1, 1977

## SMALL BUSINESS OUTREACH TOOL

**HOME** *It is recommended that Users read the Using SBOT Section below PRIOR to navigating SBOT.*

The U.S. Department of Energy (DOE) mission is to advance the national, economic, and energy security of the United States; to promote scientific and technological innovation in support of that mission; and to ensure the environmental cleanup of the national nuclear weapons complex.

DOE **SMALL BUSINESS OUTREACH TOOL (SBOT)** allows small businesses to focus marketing efforts and target DOE facilities or offices by Goods or Services. SBOT was developed by DOE OSDBU as part of its outreach strategy to enhance small business utilization throughout the DOE community.

**Using SBOT**

**ABOUT DOE** - History of DOE, its business model, and list of DOE Program, Operations, & Staff Offices, Laboratories, Centers, & Facilities and Administrations (recommended for those new to DOE Community)

**OSDBU** - overview of the Office of Small Business Utilization and links to Small Business Program Information & materials.

**HOW DOE BUYS** - summary of DOE business model and buying process (recommended for those new to DOE Community)

**MARKETING DOE** - overview of the major North American Industrial Classification System (NAICS) sectors. Users select a NAICS sector to review the industrial segments within that sector. Users can then generate a breakout, which is a list of DOE facilities or offices that procure the corresponding goods or services.

**LOCATION MAP** - a nationwide map of DOE locations by State. By selecting a State, a list of DOE facilities and Offices are displayed, from which Users can select a specific facility or office or generate a breakout for the selected State.

**OPPORTUNITIES** - a breakout of what DOE buys by facility, categorized as Recurring or As Needed. The breakouts define opportunities for Small Businesses. The Master Opportunities breakout/shown as Opportunities on the SBOT MENU is a large file 110+ pages (in Adobe pdf.) Smaller Breakouts for Individual States or NAICS Sectors can be found through the [Marketing DOE](#) or [Location](#) pages.

**ABOUT YOU** - a voluntary information request about your business (Adobe pdf).

**SBOT FEEDBACK** - for submitting comments or recommendations about SBOT (Adobe pdf).

**NNSA FORECAST** - List of potential NNSA requirements, including prime and subcontracting

**SBIR/STTR** - Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) are U.S. Government programs in which federal agencies with large research and development (R&D) budgets set aside a small fraction of their funding for competitions among small businesses only. Small businesses that win awards in these programs keep the rights to any technology developed and are encouraged to commercialize the technology
