

Pathways to Project Success

FEBRUARY 2011

2011 DOE Project Management Workshop

The Office of Management and the Office of Engineering and Construction Management (OECM) is pleased to announce the 2011 DOE Project Management Workshop. This is a designated DOE training event, and there will be 7 hours of Continuing Education Credits for each full day of attendance. Instructions on receiving CE credits will be provided at the Workshop.

When: Tuesday and Wednesday, March 15 & 16, 2011.

On March 17 and 18, 2011, there will be an optional Project Management Career Development Program (PMCDP) course offered in conjunction with the Workshop.

Where: Holiday Inn Alexandria, 625 1st St., Alexandria, VA 22314, (703) 548-6300

For Registration: 1-877-504-0047.

NOTE: Please refer to the group code "YE2" when making your hotel reservations (either by phone or the website).

Who Should Attend: Federal Project Directors, DOE Program/Staff Office representatives, Contracting Officers, DOE Contractor Project Managers and others in the DOE Project Management Community.

Cost: There is no registration fee. However, attendees' organizations are responsible for travel and lodging expenses if the attendee is on travel.

Registration: Registration is now open,¹ and will close February 12. The Agenda is available online.² Government and contractor executives and managers are invited to attend the March 15 & 16 Workshop. Registration will be limited and on a first come, first served basis.

PMCDP Course: The PMCDP Level I, Course 002152, Session 0002, "Capital Planning for Construction Projects under DOE O 413.3B" ("Capital Planning" in CHRIS/ESS), will be offered at no cost in conjunction with the Workshop. DOE employees may attend with supervisory approval. Workshop participants will receive priority placement (maximum of 30 participants). This course is closed to contractors. The 2-day course will be offered March 17 & 18, 2011, from 8:00am – 4:00pm. To register for the course, please:

1. Indicate on the conference registration interest for the course.
2. Go to CHRIS/ESS, and submit a training request.³

For questions, please email

DOEPMWorkshop@hq.doe.gov.

Federal Project Director (FPD) Corner

By Victoria C. Barth, MA ISD
OECM

The Certification Review Board granted the following certifications:

National Nuclear Security Administration:

Atinuke O. Arowojolu, Washington, D.C. (HQ) – Level I
Laurie E. Folder, Oak Ridge, TN – Level I
Edward R. Mignardot Jr., Albuquerque, NM – Level I
Richard D. Peters Jr., Oak Ridge, TN – Level II
Bonita A. Rogozinsky, Los Alamos, NM – Level I
Lawrence W. Tam, Aiken, SC – Level I

Office of Energy Efficiency and Renewable Energy:

Priscilla P. Bumbaca, Washington, D.C. (HQ) – Level I

Office of Science:

Anthony J. Indelicato, Plainsboro, NJ – Level II

Office of Environmental Management:

Joanne C. Chance, Richland, WA – Level I
Janet A. Diediker, Richland, WA – Level I
John O. Lopez, Aiken, SC – Level I
Kevin C. O’Neill, Idaho Falls, ID – Level II
Ronald O. Ramsey, Idaho Falls, ID – Level II
Benjamine B. Roberts, Idaho Falls, ID – Level I
Jennifer L. Sands, Richland, WA – Level I
Sahid C. Smith, Richland, WA – Level I
Carol L. Streczywilk, West Valley, NY – Level I
Jeffrey S. Trent, Richland, WA – Level II
Jennifer R. Woodard, Portsmouth/Paducah, KY – Level I
Edwin P. Worth, Los Alamos, NM – Level II

Question of the Month

By Victoria C. Barth, MA ISD
OECM

Question: I noticed the PMCDP certification requirements for Levels I and II changed as of the first of this year; however, my current certification profile in the Corporate Human Resources Information Service/Employee Self Service (CHRIS/ESS) system is still displaying the 2010 certification requirements. Since I started working on my Level I application in 2010, and considering the 2010

requirements are still displayed in my profile, am I eligible to obtain certification based on the 2010 requirements?

Answer: Unfortunately, no. All certification applicants coming forward as of January 1, 2011, are subject to the new requirements outlined in the January 2011 Certification and Equivalency Guidelines (see website below).

The reason your profile is not displaying the 2011 requirements is because it was created before Janu-

ary 1, 2011. All certification profiles in the CHRIS/ESS system will only display the PMCDP certification requirements at the time the profile was initially started. For you to view and answer the new requirements in CHRIS/ESS, your profile will need to be reset. Please note this operation will erase any previously stored data, thus the profile will not be reset until either you, or your sponsoring Program Office, notifies the PMCDP team that you have saved your data and want the profile reset.

Project Management Order Update Highlights: Pushing the CD-1 Reset Button

**John White, P.E., PMP,
CCE, LEED AP
OECM**

One of the more significant changes found in the newly revised DOE Order 413.3B is the potential to revise Critical Decision (CD)-1 (Approve Alternative Selection and Cost Range), if the top-end of the original approved CD-1 cost range grows by more than 50%. This was put in the Order to address cost growth and make sure it's right before baselining. The Order states,

"If the top-end of the original approved CD-1 cost range grows by more than 50% as the project proceeds toward CD-2 (Approve Performance Baseline), the Program, in coordination with the AE (Acquisition Executive), must reassess the alternative selection process. Upon complet-

ing the review, the AE must approve a revised CD-1 identifying the new or reaffirmed selected alternative and an updated CD-1 cost range. This new CD-1 information, to include the new CD-1 cost range and CD-1 approval date, will be reflected within PARS II and all subsequent PDSs (Project Data Sheets) and similar project documentation.¹"

CD-1 approval marks the completion of the project definition phase and the conceptual design. The chosen alternative should provide the essential functions and capabilities at optimum acquisition and life-cycle costs. The cost range, provided at CD-1, is only a preliminary estimate for the selected alternative. As such, it is increasingly important to give yourself enough headroom at the top-end of the cost range.

Sometimes the engineer in us wants to provide a narrow range, almost a point estimate, at CD-1. We need to resist this urge and remember that there is still a lot of planning ahead of us, including design and technology maturation, to achieve CD-2. Also, this is an iterative process to define, analyze and refine project concepts and the selected alternative, so the CD-1 cost range needs to be large enough to take full advantage of this process. As the project progresses from CD-1 to CD-2, the total project cost will be further refined and ultimately the Performance Baseline will be established at CD-2.

The bottom line is you can either give yourself enough headroom in the original CD-1 cost range the first time or you may get another shot at it!
