SUMMARY: Western Area Power Administration (Western), an agency of the Department of Energy (DOE), is canceling preparation of the Environmental Impact Statement/

Environmental Impact Report (EIS/EIR) for construction, operation, and maintenance of the proposed Transmission Agency of Northern California (TANC) Transmission Project, which would have included building and upgrading over 600 miles of 230-kilovolt (kV) and 500-kV transmission lines and associated equipment and facilities in northern California.

FOR FURTHER INFORMATION CONTACT: For further information, please contact Mr. David Young, NEPA Document Manager, Western Area Power Administration, Sierra Nevada Region, 114 Parkshore Drive, Folsom, CA 95630, telephone (916) 353-4777, fax (916) 353-4772, or e-mail TTPEIS@wapa.gov. In its Notice of Intent, Western described the schedule for scoping meetings for the EIS/EIR, and advised the public that comments regarding the scope of the EIS/EIR were due by April 30, 2009. Western held all public scoping meetings as scheduled. Because of requests from agencies and the public for more time to comment, Western extended the scoping period twice, with a final comment closing on July 30, 2009.

On August 3, 2009, Western received notification from TANC, terminating its agreement with Western to prepare the EIS/EIR. Termination of the agreement terminates Western's obligation to prepare the EIS/EIR and involvement in the TANC Transmission Project. As a result, Western has ceased preparation of the EIS/EIR.

¹ On July 1, 1996, DOE's Assistant Secretary for Environmental, Safety and Health delegated to Western's Administrator, the authority to approve EISs for integrating main transmission system additions.
