DEPARTMENT OF ENERGY

[OE Docket No. EA–348]

Application To Export Electric Energy; FPL Energy Power Marketing, Inc.

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of Application.

SUMMARY: FPL Energy Power Marketing, Inc. (PMI) has applied for authority to transmit electric energy from the United States to Mexico pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or requests to intervene must be submitted on or before February 10, 2009.

ADDRESSES: Comments, protests, or requests to intervene should be addressed as follows: Office of Electricity Delivery and Energy Reliability, Mail Code: OE–20, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585–0350 (FAX 202–586–8008).

FOR FURTHER INFORMATION CONTACT: Ellen Russell (Program Office) 202–586–9624 or Michael Skinker (Program Attorney) 202–586–2793.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the FPA (16 U.S.C.824a(e)).

On December 16, 2008, DOE received an application from PMI for authority to transmit electric energy from the United States to Canada. PMI does not own any electric transmission facilities nor does it hold a franchised service area. The electric energy which PMI proposes to export to Canada would be surplus energy purchased from electric utilities, Federal power marketing agencies, and other entities within the United States. PMI has requested an electricity export authorization with a 5-year term.

PMI will arrange for the delivery of exports to Canada over the international transmission facilities owned by Bangor Hydro-Electric Company, Basin Electric Power Cooperative, Bonneville Power Administration, Eastern Maine Electric Cooperative, International Transmission Co., Joint Owners of the Highgate Project, Long Sault, Inc., Maine Electric Power Company, Maine Public Service Company, Minnesota Power, Inc., Minnkota Power Cooperative, Inc., New York Power Authority, Niagara Mohawk Power Corp., Northern States Power Company, Vermont Electric Power Company, and Vermont Electric Transmission Co.

The construction, operation, maintenance, and connection of each of the international transmission facilities to be utilized by PMI has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

As a result of a processing delay by DOE, the public comment period has been shortened to 15 days.

Procedural Matters: Any person desiring to become a party to these proceedings or to be heard by filing comments or protests to this application should file a petition to intervene, comment, or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the Federal Energy Regulatory Commission's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with DOE on or before the date listed above.

Comments on the PMI application to export electric energy to Canada should be clearly marked with Docket No. EA–348. Additional copies are to be filed directly with Marty Jo Rogers, Senior Attorney, FPL Energy Power Marketing, Inc., 1000 Louisiana Street, Suite 6900, Houston, TX 77002 and Gunnar Birgisson, Senior Attorney, FPL Energy, 801 Pennsylvania Avenue, NW., Washington, DC 20004. A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at http://www.oe.energy.gov/permits_pending.htm, or by e-mailing Odessa Hopkins at Odessa.hopkins@hq.doe.gov.

Issued in Washington, DC, on January 16, 2009.

Anthony J. Como,

Director, Permitting and Siting, Office of Electricity Delivery and Energy Reliability.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Gtherm, Inc.; Notice of Intent To Grant Exclusive Patent License

AGENCY: Office of the General Counsel, Department of Energy.

ACTION: Notice of intent to grant exclusive patent license.

SUMMARY: Notice is hereby given with an intent to grant to Gtherm, Inc. of Weston, Connecticut, an exclusive license to practice the inventions described in U.S. Patent No. 6,251,179, entitled "Thermally Conductive Cementitious Grout for Geothermal Heat Pump Systems." The inventions are owned by the United States of America, as represented by the U.S. Department of Energy (DOE).

DATE: Written comments or nonexclusive license applications are to be received at the address listed below no later than February 10, 2009.

ADDRESSES: Office of the Assistant General Counsel for Technology Transfer and Intellectual Property, U.S. Department of Energy, 1000 Independence Ave., SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Annette R. Reimers, Office of the Assistant General Counsel for Technology Transfer and Intellectual Property, U.S. Department of Energy, Forrestal Building, Room 6F-067, 1000 Independence Ave., SW., Washington, DC 20585; Telephone (202) 586-3815.

SUPPLEMENTARY INFORMATION: 35 U.S.C. 209 provides federal agencies with authority to grant exclusive licenses in federally-owned inventions, if, among other things, the agency finds that the public will be served by the granting of the license. The statute requires that no exclusive license may be granted unless public notice of the intent to grant the license has been provided, and the agency has considered all comments received in response to that public notice before the end of the comment period.

Gtherm, Inc. of Weston, Connecticut has applied for an exclusive license to practice the inventions embodied in U.S. Patent No. 6,251,179 and has plans for commercialization of the inventions. The exclusive license will be subject to a license and other rights retained by

the U.S. Government and other terms and conditions to be negotiated. DOE intends to negotiate to grant the license, unless, within 15 days of this notice, the Assistant General Counsel for Technology Transfer and Intellectual Property, Department of Energy, Washington, DC 20585, receives in writing any of the following, together with supporting documents:

(i) A statement from any person setting forth reason why it would not be in the best interests of the United States to grant the proposed license; or

(ii) An application for a nonexclusive license to the invention in which applicant states that it already has brought the invention to practical application or is likely to bring the invention to practical application expeditiously.

The Department will review all timely written responses to this notice and will proceed with negotiating the license if, after consideration of written responses to this notice, a finding is made that the license is in the public interest.

Issued in Washington, DC on January 12, 2009.

Paul A. Gottlieb,

Assistant General Counsel for Technology Transfer and Intellectual Property.
