SUPPLEMENTARY INFORMATION:

Summary of Change in Control

NFE Altamira states that New Fortress Energy, Inc. (NFE), of which NFE Altamira is an indirect, wholly owned subsidiary, entered into a restructuring support agreement, with “certain of its subsidiaries” on March 17, 2026.¹ According to the Statement, the restructuring support agreement contemplates a change in NFE Altamira’s upstream ownership.² NFE Altamira states that, following the restructuring, “NFE will separate into

two separate, independent companies: one generally comprising NFE’s businesses and assets in Brazil . . . , and the other generally comprising NFE’s other businesses and assets, which will be retained by NFE.”³

NFE Altamira states, “should the transaction [that is the subject of the change in control] close,” three “groups of investment funds will each acquire between 10 percent and 20 percent of the voting securities of NFE, based on current holdings.”⁴ The first is Capital Research and Management Company (CRMC) “or a CRMC-affiliated entity,” which NFE Altamira describes as “a Delaware corporation and U.S. Securities and Exchange Commission registered investment advisor [that] serves as the discretionary investment manager, severally and not jointly, for and on behalf of 31 funds and accounts acquiring equity in NFE on the basis of individual advisory and service agreements.”⁵ The second is Fidelity Management & Research Company LLC “or affiliated entities thereof,” which NFE Altamira describes as “a Delaware limited liability company and U.S. registered investment advisor [that] advises, sub-advises or provides investment management services to over 80 funds and accounts that will acquire equity in NFE.”⁶ The third is Strategic Value Partners, LLC “or affiliated entities thereof,” which NFE Altamira describes as “a Delaware limited liability company and U.S. registered investment advisor [that] advises or provides investment management services to four fund complexes that will acquire equity in NFE.”⁷ NFE Altamira further states that it expects the transaction to close “sometime during the second quarter of 2026,” and that it “will notify DOE after the transaction closes.”⁸
