24 Ms. Hayward stated that she would be discussing the items attached to the meeting agenda.
25 The attached questions came from an email from Mark Hayden to Bridget Maestas and
26 Abbey Hayward sent on December 10, 2024. The email contained links to the Fully Executed
27 Settlement Agreement, Overview of Revisions to the 2016 Compliance Order on Consent,
28 Fully Executed Revised 2016 Compliance Order on Consent and 10 questions directed to the
29 New Mexico Environment Department (NMED). The items can also be found in the Consent
30 Order meeting packet. Ms. Hayward and Mr. Hayden are currently in discussion on an
31 efficient method to review the larger documents. Suggestions from the committee on how
32 to proceed are welcome.

33 Mr. McLaughlin asked if a summary that states the implications of the changes to the
34 Settlement Agreement has been created.

35 Mr. Grindstaff stated that the presentation to the NNMCAB at the September Board
36 meeting would be the best source of information. Mr. Grindstaff will request responses
37 from the Environmental Management Los Alamos Field Office (EM-LA) to the questions
38 proposed by the Consent Order Subcommittee and ask if a summary discussing the
39 implications of changes to the Settlement Agreement has been created.

40 Ms. Hayward informed the Subcommittee members that this would be an opportune time
41 to submit any questions.

1 Mr. McLaughlin asked what items could be premature due to a lack of information on the
2 impacts of the changes to the Settlement Agreement.

3 Ms. Santistevan asked Ms. Hayward if a goal for the Consent Order Subcommittee had been
4 discussed. She suggested that the Subcommittee review the Settlement Agreement
5 presentation and that it should be sent to the members for review.

6 Mr. Hayden stated that he reviewed the Settlement Agreement and formulated a list of
7 questions. His intent was to create a timeframe that the Subcommittee could revisit and
8 work with throughout the year.

9 Mr. Grindstaff updated Mr. Hayden on the questions he will be providing to EM-LA.

10 Mr. Hayden asked if the Department of Energy (DOE) is still working with the NMED.

11 Mr. Grindstaff stated that the two entities are still working closely together.

12 Mr. McLaughlin asked if there was an update on when the Technical Review of the
13 Chromium Plume would be available.

14 Mr. Grindstaff stated that the Technical Review Report has been received and a
15 communication plan is currently being created. Dr. Inez Triay will be presenting at the
16 January 28th NNM CAB Meeting.

17 Mr. Hayden asked if NMED would be present at the Board Meeting.

18 Ms. Maestas stated that she has extended an invitation to NMED and is unaware of who will
19 attend. The January meeting will take place on Tuesday the 28th in the larger Ballroom of the
20 Cities of Gold Hotel. The Technical Review Report may be released to the public by the end
21 of December and Ms. Maestas will provide the report to the members upon receiving it.

22 Mr. McLaughlin asked if EM-LA had provided any suggestions as to what they would like for
23 the Consent Order Subcommittee to consider.

24 Mr. Grindstaff stated that no suggestions had been made.
