## Environmental Impact Reports (EIR)

If the Lead Agency finds that the project may have a significant impact on the environment and that there are no obvious measures the applicant can take to mitigate potential problems, an EIR will be required. An EIR may also be required if further study is needed to provide information necessary in determining whether or not the project could have a significant impact.

### [PL13-0158 Public Review](#)

#### **Mirada Petroleum and Gas Project**

- [Final Subsequent Environmental Impact Report](#)

**Project Description:** The applicant requests to continue the operation of the existing Mirada Petroleum oil and gas production operation authorized by Conditional Use Permit 3543 for an additional 25 years. The proposed project also includes: Installation and placement into production of three new oil and gas wells; re-drilling of one existing well; the use of Koenigstein Road by large trucks (including tanker trucks) associated with the oil and gas production activities. (Such use is currently prohibited under CUP 3543.)
