☐ Employee Assist	☐ Access to Recordings		
Notice Left	Building	Area	Room
No	815	Limited	N/A

Details

At approximately 1030 hours, I (b)(6) was notified by the Central Alarm Station (CAS) that they heard over the escort channel about a possible drone sighting. The CAS Operator said he heard the escorts at the building 815 project talk about a drone in their area at approximately 1027 hours.

I made contact with Security Escorts (b)(6) employee# (b)(6) and (b)(6) employee# (b)(6) at building 815 in the Process Area. They both said, "I saw a round silver drone flying around the Process Area and periodically stopping and hovering for several seconds. Once it continued it flew to the north of my location and stopped and hovered for several more seconds. It flew over there area for several minutes and departed south east. It was really high up and it looked like it was just under the clouds."

The drone like object was flying at a distance and height that made identification of the characteristics of the object impossible for (b)(6) and (b)(6).

(b)(6) contact (b)(6) employee# (b)(6) who said there was no scheduled drone flights for Site 300 today.

OFFICIAL USE ONLY

I had (b)(6) sweep Corral Hollow Road and he found no personal in the area during his sweep. (b)(6) drove to building 836 area and reported the area was clear. I continued to monitor the Process Area resulting in a negative sighting. At 1040 hours (b)(6) was notified of the incident. (b)(6) and (b)(6) were also notified. Further notifications were made to (b)(6) and (b)(6)
