U.S. Department of Energy | Office of Energy Dominance Financing (EDF)

Launch Your Career in Energy!

FY 2027 INTERNSHIP OPPORTUNITIES

EDF OPPORTUNITY - Applications Now Open!

The U.S. Department of Energy's Office of Energy Dominance Financing (EDF) supports high-impact energy and manufacturing initiatives advancing U.S. energy security, affordability, grid reliability, and national competitiveness. EDF works with private-sector partners, federal agencies, and stakeholders to finance projects that strengthen America's energy foundation and support emerging technologies.

Over the span of ten weeks, EDF interns may participate in research, analysis, and program support across the following focus areas, gaining exposure to federal energy finance, public-private partnerships, and cross-agency collaboration.

EDF FOCUS AREAS

- Energy generation and grid reliability projects
- Innovative energy technology initiatives
- Manufacturing and advanced transportation projects
- Tribal energy investment and partnership projects
- Energy solutions that support U.S. leadership in artificial intelligence and other emerging technologies

APPLY TO FY 2027 INTERNSHIP PROGRAMS

As an EDF intern, you will gain unparalleled professional development by engaging in large-scale loan evaluations for innovative energy projects, building expertise in financial modeling, due diligence, and credit risk analysis. This opportunity provides a unique opportunity to contribute to the national good by directly supporting the revitalization and innovation of the U.S. energy industry, enabling the deployment of energy technologies and fostering American economic prosperity.
