Subject: DTSC Approval of Final Addendum No. 4 to Master FSAP, Subarea 5D North Soil Sampling

Stephie and John,

The Department of Toxic Substances Control (DTSC) reviewed Addendum No. 4 to the Master Work Plan/Field Sampling and Analysis Plan, Co-Located Chemical Soil Sampling at Area IV, EPA Subarea 5D North Soil Sampling (5D North Addendum, CDM Federal Programs Corporation, May 2011) for the Santa Susana Field Laboratory (SSFL). The 5D North Addendum supports field implementation of the soil sampling program described in the DTSC-approved Master Work Plan/Field Sampling and Analysis Plan (FSAP), Co-Located Chemical Sampling at Area IV, SSFL (CDM, 2011).

The draft 5D North Addendum was submitted to DTSC for review on May 10, 2011. At that time, DTSC provided comments. Revisions were subsequently incorporated in the 5D North Addendum to address DTSC's comments, and the final 5D North Addendum was submitted to DTSC on May 10, 2011. DTSC concurs with the revisions and approves the final 5D North Addendum for implementation.

Due to the expedited schedule for preparation, review and implementation of the 8 North Addendum, the document may contain minor omissions or errors. If additional relevant information becomes available that warrants changes, and/or changes to the field implementation, or quality assurance efforts are made in the field, those changes shall be coordinated with DTSC, documented, and provided in the associated data report.

If you have any questions regarding this approval, please don't hesitate to contact me at (714) 484-5434 or Mr. Mark Malinowski at (916) 255-3717.

Thank you,
Laura Rainey
