**Re: *Tenaska Power Services Co.*, Docket No. EA-243-E
Application for Renewal of Authorization to Transmit
Electric Energy to Canada**

Dear Ms. Francone:

Enclosed for filing is the “Application of Tenaska Power Services Co. for Authorization to Transmit Electric Energy to Canada.” The filing fee of \$500.00 has been paid electronically via pay.gov.

Thank you for your assistance in this matter.

Respectfully submitted,

/s/ Neil L. Levy

Tenaska Power Services Co.

)

Docket No. EA-243-E

**APPLICATION OF TENASKA POWER SERVICES CO.
FOR AUTHORIZATION TO TRANSMIT ELECTRIC ENERGY TO CANADA**

Pursuant to Section 202(e) of the Federal Power Act (the “FPA”),¹ and Part 205, Subpart W of the regulations of the U.S. Department of Energy (the “Department” or “DOE”),² Tenaska Power Services Co. (“TPS” or “Applicant”) hereby submits this application (this “Application”) for renewal of its blanket authorization to transmit electric energy from the United States to Canada for a period of five years. In support of this Application, TPS respectfully states as follows:

I.

DESCRIPTION OF APPLICANT

TPS is a power marketer authorized by the Federal Energy Regulatory Commission (“FERC”) to make sales of electric power at wholesale in interstate commerce at market-based rates.³ TPS does not own or control any transmission facilities and does not have a franchised service area.

¹ 16 U.S.C. § 824a(e) (2024).

² 10 C.F.R. §§ 205.300, *et seq.* (2025).

³ *See Tenaska Power Servs. Co.*, Docket No. ER94-389-000 (May 26, 1994) (unreported) (granting market-based rate authority) (provided as Attachment 2 hereto).

On January 7, 2022, the Department issued Order No. EA-243-D authorizing TPS to export electric energy to Canada as a power marketer for a five-year term.⁴ TPS's current authorization to export electric energy to Canada expires on January 11, 2027.

TPS is an indirect, wholly owned subsidiary of Tenaska Energy, Inc. ("Tenaska"). TPS's parent company, Tenaska, is a privately held corporation organized and existing under the laws of Delaware. Tenaska is an independent developer and owner of power production facilities located throughout the United States.

II.

INFORMATION REQUIRED PURSUANT TO 10 C.F.R. § 205.302

A. Exact legal name of Applicant.

The exact legal name of Applicant is Tenaska Power Services Co.

B. Exact legal name of all partners.

TPS is not seeking authorization to export power on behalf of any of its partners or members. TPS's upstream ownership is described in Section I above.

C. Name, title, post office address, and telephone number of the persons to whom correspondence in regard to the Application should be addressed.

All correspondence and communications regarding this Application should be addressed to the following persons:

⁴ See *Tenaska Power Servs. Co.*, Order Authorizing Electricity Exports to Canada, Order No. EA-243-D (Jan. 7, 2022). TPS has also received authorization to export electricity to Mexico. See *Tenaska Power Servs. Co.*, Order Authorizing Electricity Exports to Mexico, Order No. EA-431-A (Mar. 4, 2022). A wholly owned subsidiary of TPS, *Tenaska Energía de Mexico, S. de R.L. de C.V.*, was previously granted authorization to export electricity to Mexico but did not request renewal of such authorization when it expired. See *Tenaska Energía de Mexico, S. de R.L. de C.V.*, Order Authorizing Electricity Exports to Mexico, Order No. EA-417 (June 15, 2016).

(202) 756-8087 (facsimile)
nlevy@mcdermottlaw.com

D. States or territories under the laws of which Applicant is organized or incorporated, or authorized to operate.

TPS is a Nebraska corporation that is authorized to do business in the States of Nebraska, Alabama, Illinois, Texas, New York, Ohio, Oklahoma, California, Delaware, Nevada, Pennsylvania, New Jersey, and Washington.

E. Name and address of any known Federal, State or local government agency which may have any jurisdiction over the action to be taken in this Application and a brief description of that authority.

Other than the Department, TPS is not aware of any federal, state, or local government agency that has jurisdiction over the actions to be taken under the authority sought in this Application.

F. Description of the transmission facilities through which the electric energy will be delivered to the foreign country, including the name of the owners and the location of any remote facilities.

Consistent with the Department's prior orders, TPS requests authorization to export power to Canada over any authorized international transmission facility that is appropriate for open access transmission by third parties in accordance with the export limits authorized by the Department.⁵ Exhibit C to this Application identifies the existing and planned international transmission

⁵ See, e.g., *Morgan Stanley Capital Group Inc.*, Order Authorizing Electricity Exports to Canada, Order No. EA-185-F (May 14, 2026).

facilities that are currently authorized by Presidential Permit and available for open access transmission.⁶

Given that TPS only intends to export power over existing transmission lines, this Application qualifies for a categorical exclusion under the Department's regulations implementing the National Environmental Policy Act of 1969.⁷

G. Technical discussion of the proposed electricity export's reliability, fuel use and system stability impact on the Applicant's present and prospective electric power supply system.

TPS seeks authorization to continue to transmit electric energy to points in Canada as a power marketer. As noted above, TPS does not currently own or control electric generation or transmission facilities, and does not have a power supply of its own in the United States that would cause its electricity exports to have a reliability, fuel use, or system stability impact. TPS will purchase the electricity that it may export, on either a firm or an interruptible basis, from wholesale generators, electric utilities, federal power marketing agencies and affiliates through negotiated agreements that have been voluntarily executed by the selling parties after considering their own need for any such electricity. Accordingly, TPS's proposed electricity exports will not impair or tend to impede the sufficiency of electric power supplies in the United States or the regional coordination of electric utility planning or operations.⁸ Additionally, as a power marketer that does not own or operate a transmission system (and therefore must acquire transmission service pursuant to open access transmission and similar tariffs), TPS does not have the ability to cause a

⁶ See *id.* at 11-13.

⁷ See 10 C.F.R. Part 1021, Appendix B, § B4.2 (2025) (providing a categorical exclusion for the "[e]xport of electric energy as provided by Section 202(e) of the [FPA] over existing transmission systems or using transmission system changes that are themselves categorically excluded").

⁸ See 10 C.F.R. § 205.302(g) (2025).

violation of the terms and conditions in the existing authorizations associated with international transmission facilities. Specifically, TPS does not have the ability to cause total electricity exports on Presidential Permit facilities to exceed the authorized instantaneous transmission capacity limits for such facilities.

TPS will make all necessary commercial arrangements and will obtain any and all other regulatory approvals required in order to carry out any electricity exports. This would include: (1) scheduling each transaction with the appropriate balancing authority area in compliance with all reliability criteria, standards, and guidelines of the North American Electric Reliability Corporation and the relevant Regional Entities (collectively, “NERC”) in effect at the time of export, and (2) obtaining all necessary transmission access over approved export facilities. TPS agrees to abide by the export limits contained in the relevant export authorization of any transmission facilities over which TPS exports electricity to Canada. The controls that are inherent in any transaction that complies with all NERC requirements and the export limits imposed by the Department on the international transmission facilities are sufficient to ensure that exports by TPS would not impede or tend to impede the coordinated use of transmission facilities within the meaning of Section 202(e) of the FPA.

H. Application shall be signed and verified under oath by an officer of the Applicant having knowledge of the matters set forth herein.

The required verification is provided as Attachment 1 hereto.

III.

EXHIBITS AND ATTACHMENTS

A. Exhibits

Pursuant to 10 C.F.R. § 205.303, TPS is providing the following exhibits hereto or designating them as not applicable:

Exhibit A	Agreements under which electricity will be transmitted – Not applicable.
Exhibit B	Legal opinion of TPS’s counsel stating that that the proposed export of electricity is within TPS’s corporate power and that TPS has complied or will comply with all pertinent Federal and State laws.
Exhibit C	List of currently authorized transmission facilities (submitted in lieu of maps).
Exhibit D	Power of attorney for applicant outside the United States – Not applicable.
Exhibit E	Statement of corporate relationship or existing contract relating to the control or fixing of rates for the purchase, sale or transmission of electric energy – Not applicable.
Exhibit F	An explanation of the methodology (Operating Procedures) to inform neighboring electric utilities in the United States of the available capacity and energy which may be in excess of TPS’s requirements before delivery of such capacity to the foreign purchaser – Not applicable.

B. Attachments

This Application includes the following attachments:

Attachment 1	Verification.
Attachment 2	Copy of letter order from FERC, dated May 26, 1994, granting TPS market-based rate authority.

IV.

CONCLUSION

WHEREFORE, for the reasons set forth herein, TPS respectfully requests that the Department issue an order renewing TPS's authorization to transmit electric energy to Canada for a period of five years, effective upon issuance of the order but no later than January 7, 2027.

Respectfully submitted,

TENASKA POWER SERVICES CO.

Exhibit B

Legal Opinion of TPS's Counsel

LEGAL OPINION

The following opinion is given in support of the foregoing Application of Tenaska Power Services Co. for Authorization to Transmit Electric Energy to Canada (the "Application").

1. Tenaska Power Services Co. is a duly incorporated and validly existing limited liability company, which is in good standing under the laws of the State of Delaware.
2. Tenaska Power Services Co. has the corporate capacity to act in the manner described in the Application.
3. To the best of my knowledge and belief, Tenaska Power Services Co. is in the process of complying with all Federal and State laws regarding the matters contemplated in the Application.

Kevin M. Page
Vice President and General Counsel
Tenaska Power Services Co.

FERC Order Granting Market-Based Rate Authorization

Docket No. ER94-389-000

MAY 26, 1994

Flood & Ward
Attention: Mr. David B. Ward
1000 Potomac Street, N.W., Suite 402
Washington, D.C. 20007

Dear Mr. Ward:

By letters dated December 23, 1993, February 1 and March 28, 1994, you submitted for filing with the Commission, on behalf of Tenaska Power Services Company (TPS), a rate schedule under which TPS will engage in wholesale electric power and energy transactions as a marketer. You also request (1) waivers of various regulations consistent with those granted other marketers, and (2) clarification as to whether the sale of accounts receivable in connection with power marketing transactions requires Commission approval under Section 203 of the Federal Power Act. Authority to act on this matter is delegated to the Director, Division of Applications, under Section 375.308 of the Commission's Regulations; pursuant to Section 375.308(a)(1), your submittal is accepted for filing and designated as shown on the Enclosure.

Your requests for waiver of the Commission's filing requirements are hereby granted, along with the authorizations and subject to the same conditions provided in Citizens Power & Light Corp. (Citizens), 48 FERC ¶ 61,210 (1989). Consistent with Ford Motor Company, 52 FERC ¶ 61,025 (1990), TPS is required to comply with Part 46 of the Regulations. Also, in Enron Power Marketing, Inc. (Enron), 65 FERC ¶ 61,305 at 62,405 (1993), the Commission explained that sales of accounts receivable would not require filing under Section 203.

Consistent with the Commission's action in Citizens, you are directed to submit quarterly informational filings containing the same information required in Citizens for each purchase contract and each sale contract, with the first filing due within 30 days of the calendar quarter ending in June of 1994. Also, consistent with Citizens and Enron, order on reh'g, 66 FERC ¶ 61,244 (1994), you are directed to file promptly with the Commission any change in status. Changes in status include departure from the characteristics the Commission has relied upon in approving market-based pricing for TPS, including but not limited to: (1) lack of ownership of generation or transmission facilities (except for those qualifying facilities (QF) or exempt wholesale

↑

Flood & Ward

generators (EWG) identified in your submittal for which commitments of the entire output were made under long-term contracts prior to the date of this order) or inputs to electric power production; (2) lack of affiliation with any entity which owns generation or transmission facilities (except for QFs and EWGs identified in your submittal for which commitments of the entire output were made under long-term contracts prior to the date of this order) or other inputs to electric power production; (3) lack of affiliation with any entity that has a franchised service area; or (4) lack of business arrangements (including sales of accounts receivable) involving TPS or any entity affiliated with TPS and the entities which buy power from or sell power to TPS or transmit power for TPS.

Notice of your filing was published in the Federal Register with comments, protests, or interventions due on or before May 3, 1994. No comments, protests, or interventions were filed.

Good cause is shown for granting waiver of the notice requirements pursuant to Section 205(d) of the Federal Power Act and Section 35.11 of the Commission's Regulations thereunder; therefore, the rate schedule shall become effective as shown on the Enclosure.

This action does not constitute approval of any service, rate, charge, classification, or any rule, regulation, contract, or practice affecting such rate or service provided for in the

filed documents; nor shall such acceptance be deemed as recognition of any claimed contractual right or obligation affecting or relating to such service or rate; and such acceptance is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against Tenaska Power Services Company.

This order constitutes final agency action. Requests for rehearing by the Commission may be filed within thirty days of the date of issuance of this order, pursuant to 18 CFR 385.713.

This letter terminates Docket No. ER94-389-000.

Sincerely,

Donald J. Gelinas, Director
Division of Applications
