Summary Nonattainment Area Population Exposure Report

As of October 01, 2015

Ordered by state code(s)

The NO₂ nonattainment area became a maintenance area on September 22, 1998.

All Carbon Monoxide areas were redesignated to maintenance areas as of September 27, 2010.

The 8-hour Ozone (1997) standard was revoked on April 6, 2015 and the 1-hour Ozone (1979) standard was revoked on June 15, 2005.

State(s)	General Area Name (see note)	2010 Population in 1000s (area count)								
		8-Hr Ozone (2008)	PM-2.5 (2012)	PM-2.5 (2006)	PM-2.5 (1997)	PM-10	SO2 (2010)	SO2 (1971)	Lead (2008)	Lead (1978)

2010 Population in 1000s (area count) by Pollutant										
Total Estimated 2010 Population (in 1000s) Nonattainment		8-Hr Ozone (2008)	PM-2.5 (2012)	PM-2.5 (2006)	PM-2.5 (1997)	PM-10	SO2 (2010)	SO2 (1971)	Lead (2008)	Lead (1978)
Across All Criteria Pollutants: 130,886		122,430 (45)	23,223 (9)	34,482 (17)	31,741 (10)	9,564 (39)	1,924 (29)	1,217 (9)	9,667 (21)	5 (2)

The Summary Population Exposure Report is a summary of the population living in an area that is in nonattainment for at least one of the NAAQS.

Area Name:

The "State(s) Area Name" column contains a common or general name for the nonattainment areas on the row, but may not reflect the exact name of any area on the row. This column cannot be exact since the nonattainment area for one pollutant may not contain the same counties, cities, or states as the nonattainment area for another pollutant on the same row. The abbreviations listed in the "State(s)" column reflect all states identified in row. However, some states on a row may be nonattainment for some pollutants and not for others in the general area. A multi-state area with states that have not all been redesignated to maintenance is counted as a nonattainment area until all of the states in the area are redesignated, with the whole area population displayed.
