OFFICE OF FOSSIL ENERGY AND CARBON MANAGEMENT

Golden Pass LNG Terminal LLC

Docket No. 12–156–LNG

Motion to Intervene of Public Citizen, Inc.

Public Citizen moves in intervene in this proceeding. Golden Pass LNG—a joint venture of ExxonMobil and QatarEnergy—is constructing an export facility in Sabine Pass, Texas, and requests an extension of its commencement deadline from September 30, 2025 to March 31, 2027.¹

Established in 1971, Public Citizen, Inc. is a national, not-for-profit, non-partisan, research and advocacy organization representing the interests of household consumers. We have over 500,000 members and supporters across the United States. Public Citizen is active before the Federal Energy Regulatory Commission as an intervenor in multiple LNG facility dockets, and we frequently intervene in U.S. Department of Energy proceedings involving the export of natural gas. As one of America’s largest advocacy organizations representing the interests of household consumers, we and our members have a direct interest in Golden Pass LNG’s request for an extension of its commencement deadline, as America’s record gas exports are profoundly disrupting domestic energy markets, straining the availability of domestic gas supplies, and exposing families to increased energy price burdens. Our Energy Program Director, Tyson Slocum, is an authority on energy market regulatory matters, serving as an expert witness on the Department of Energy public interest standard in testimony before the U.S. Congress.² Slocum serves on two federal advisory committees of the U.S. Commodity Futures Trading Commission (the Energy and Environmental Markets and Market Risk advisory committees). Financial details about our organization are on our web site.³

Respectfully submitted,

Tyson Slocum
