Subject: RE: Waste from Remediation of SSFL

Gary:
Below is a revised entry for Table 2.
Syd

Table 2. Example Waste Treatment and Disposal Facilities

Site *	Location	Approximate Distance (miles)	Waste Types Accepted and Services	Approximate Remaining Landfill Capacity
<i>LLW or MLLW Treatment/Disposal Facilities</i>				
Nevada National Security Site (NNSS)	Mercury, NV	326	Accepts DOE LLW and MLLW, including those containing or contaminated with asbestos or PCBs, for disposal. No MLLW treatment services – all MLLW must meet RCRA Land Disposal Restrictions. Wastes must also meet the NNSS Waste Acceptance Criteria and be certified by an approved NNSS waste generator facility.	6.4M cu ft
