Idaho Cleanup Project

# AMWTP RCRA Closure

- RCRA strategy will need to be developed for AMWTP over the next 6 months and coordinated with the state of Idaho.
- AMWTP end state will be D&D, not facility reuse, which will drive the RCRA closure strategy.

To be completed in a phased approach over many years:

- Phase 1 will close the buildings currently covered by an Interim Status Permit.
- Phase 2 will close the treatment facility buildings.
- Phase 3 will close all remaining buildings when all the waste has left the state.

# RCRA Closure – Phase 1
