Jeff,

Until Mesquite is fully operational, this facility can only be used for loading/unloading. Thus, similar to the local Puente Hills Intermodal Facility, Mesquite's Rail Yard is the only portion of the facility available for public use.

Mark

Hi Mark -- I was wondering if the Mesquite Regional Landfill would also accept LLW or MLLW?  
Thanks,  
Jeff

Based on your very general description of the operation and assuming there is no processing onsite, we are open. Further details, quantities, and logistics would determine if we could accept the material.

Mark

Hi Mark --

Great speaking with you the other day. I wanted to confirm that the facility could handle Low Level Radioactive Waste (LLW) and Mixed Low Level Radioactive waste (MLLW). We expect this material to be in a sealed container. Thoughts?  
Regards,  
Jeff
