Categorical Exclusion Determination Form

Proposed action title: Routine Long-Term Surveillance and Maintenance Actions for the Grand Junction, Colorado, Processing Site

Program or field office: Office of Legacy Management (LM)

LM Categorical Exclusion Evaluation no.: LM 01-26

Location(s) (LM site name or city, county, state): Grand Junction, Colorado, Processing Site

Proposed Action Description

DOE-LM is proposing to conduct routine long-term surveillance and maintenance (LTS&M) actions at the Grand Junction, Colorado, Processing Site located in Mesa County approximately one mile southeast of downtown Grand Junction. The City of Grand Junction owns the Site and operates it as a public recreation area and business park.

Proposed actions would include inspections, tours, maintenance of site institutional controls, groundwater and surface water monitoring, site characterization and resource assessments, surveys (e.g., land, ecological, geophysical), and routine maintenance of groundwater monitoring wells and associated infrastructure. These proposed routine LTS&M actions would be performed to satisfy requirements outlined in the site's Long-Term Management Plan, which explains how DOE-LM fulfills requirements as the long-term custodian of the site in a manner that is protective of human health and the environment.
