

OneNNSAccess | Savannah River Site

Access Instructions

Access Overview

Valid Homeland Security Presidential Directive 12 (HSPD-12) badge holders are encouraged to use the [OneNNSAccess \(ONA\) portal](#) to pre-register at least 3-5 business days before your visit to the Savannah River Site (SRS).

At SRS, you are permitted to enter the general barricade after showing your badge to the protective force; advance registration is not required for this initial access. Registration through ONA only provides access to a limited number of areas. If you are unsure whether ONA will benefit you, please contact your host to ensure you request access to the appropriate location. To ensure access approvals are routed correctly and in a timely manner, please reach out to your host to confirm their contact information.

If your pre-registration is approved, you do not need to visit the badge office upon arrival. Your HSPD-12 badge will remain active for authorized access at SRS until the end of your approved visit.

For more information, visit <https://public.srs.gov/visitors-and-tours/#onennsaccess>.

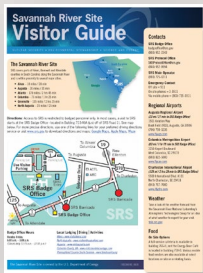

Important Steps

- Register your visit in advance using the [via the SRS form](#).
- Contact your SRS host or sponsor to determine if your visit requires site-specific safety training or enhanced access control authorizations.
- Bring your HSPD-12 badge with you.
- Ensure your badge remains visible and always worn while on-site.

For questions about visitor registration or badge access, please contact badgeoffice@srs.gov.

Know Before You Go

For additional information about visiting SRS, please visit <https://public.srs.gov/visitors-and-tours/#what-to-expect>.
