**Subject:** EXTERNAL: RE: Final SSFL Area IV EIS

Good morning Gary,

Here are the updated information for McKittrick , Azusa and Lancaster. Information for Antelope Valley (Palmdale) is accurate. Please note WM no longer operates NuWay landfill.

Azusa Land Reclamation (Waste Management)	Azusa, California	56	Unclassified (inert waste) landfill. Accepts solid nonhazardous waste for disposal, including construction and demolition debris and inert waste such as soil, concrete, and asphalt, as well as friable and nonfriable asbestos. Pre- approval is required for industrial waste, large soil volumes, and friable and nonfriable asbestos. <b>*Thermal Remediation Solutions is no longer in service.*</b>	45,450,000 cubic yards as of September 2017. Waste acceptance limit of 8,000 tons/day.
McKittrick Waste Treatment Site (Waste Management)	McKittrick, California	140	Class II landfill. Accepts construction and demolition debris, industrial and special waste,c auto shredder fluff, and nonfriable asbestos for disposal. Services include liquid solidification and drum management. Pre-approval is required for all waste streams.	Remaining permitted disposal capacity is approx. 3.5 million tons as of March 2017. Waste acceptance limit of 3,500 tons/day.
Lancaster Landfill and Recycling Center (Waste Management)	Lancaster, California	64	Class III landfill. Disposal of clean, nonhazardous soil (restrictions on plant matter content), construction and demolition waste (e.g., asphalt, concrete), and municipal solid waste. Pre-approval required for industrial waste, large soil volumes, nonfriable asbestos, treated wood, and municipal wastewater treatment plant sludge. Services include recycling of concrete, asphalt, wood, and green waste.	13,800,000 cubic yards as of August 2017. Waste acceptance limit of 5,100 tons/day.

Thank you and please do not hesitate to contact me at [REDACTED] if you have any questions or concerns.
