

# Better Buildings Residential Network

## RESOURCE: IMAGE LIBRARIES

### Find images to help tell your story

The Better Buildings Residential Network has compiled a list of online databases that can provide your program with quality, high-resolution images to tell your energy efficiency story. Many of the sites below provide images that can be used without attribution, while others require minimal attribution (e.g., “Photo from DOE Image Gallery”). All sources are hyperlinked and free, except where otherwise noted.

Attic ventilation. *Photo courtesy NREL Image Gallery on Building Technologies.*

**The Building America Solution Center Image Gallery:** Find more than 2,000 new building and energy efficiency upgrade images in this DOE resource. Images are searchable by keywords, and each image is accompanied by a brief description.

**The National Renewable Energy Laboratory Image Gallery:** Search a collection of more than 30,000 photographs, scientific images, and videos related to renewable energy and energy efficiency technologies.

**Health Heroes Infographic:** National Environmental Education Foundation and the Rocky Mountain Institute, a Better Buildings Residential Network member, created the Health Heroes infographic to illustrate how health professionals can promote the benefits of home energy upgrades as preventative health and health symptom-reducing measures.

### Additional Image Libraries

These image libraries provide high-resolution stock images and clipart searchable by keywords to provide your program with compelling visuals to tell your story:

- CanStockPhoto
- Openclipart
- Pexels
- Flaticon
- Pixabay
- Freepik
- Unsplash
- MorgueFile

The Better Buildings Residential Network connects energy efficiency programs and partners to share best practices and learn from one another to increase the number of homes that are energy efficient. The Better Buildings Residential Program Solution Center is a robust online collection of nearly 1,000 examples, strategies, and resources that include images representing a rich cross-section of residential energy efficiency upgrades:

- The *Residential Energy Dispatch* regularly posts updates and images on the newest trends and opportunities for residential energy efficiency upgrade programs.
- Check out the latest group of *Lessons Learned Fact Sheets* shared by members during Peer Exchange Calls, which includes images.
- The Better Buildings Residential Network features six toolkits: *Evaluate and Learn As You Go to Strengthen Performance*, *Community-Based Social Marketing*, *Designing Incentives*, *Partnerships*, *Social Media*, and *Training*.
- The Better Buildings Residential Network *case studies* feature members to fulfill our mission to share best practices and learn from one another. See the case study on *Community-Based Social Marketing in Fort Collins, Colorado*.
- Use the new DOE *Health + Home Performance infographic* to spark homeowner conversations.
