Regulatory & Stakeholder Interface Program  
Newport News Nuclear BWXT-Los Alamos, LLC

ENVIRONMENTAL MANAGEMENT  
SAFETY ♦ EFFICIENCY ♦ TRANSPARENCY

Our view: Stakeholder engagement is central to decision-making. Well-informed decision-making requires sustained stakeholder engagement. We value a diversity of stakeholder perspectives, which helps ensure we understand what matters most to the community.

We strive to

1. Operate in an open, honest, accurate and timely manner
2. Improve and continually evolve stakeholder engagement to meet public needs
3. Be responsive

Stakeholder engagement builds trust and confidence in the decision-making process by ensuring stakeholders are informed and involved

Through our stakeholder engagement, we

1. Seek to understand stakeholders values, needs and interests
2. Encourage broad and diverse public involvement at the outset and throughout the decision-making process
3. Meet or exceed federal and state requirements for stakeholder engagement

- ✓ The nature of the work is changing
- ✓ Hard decisions are ahead of us
- ✓ Our task is to prepare the public to meaningfully participate in the regulatory public process
