

**BEFORE THE
U.S. DEPARTMENT OF ENERGY
WASHINGTON, D.C. 20585**

In the Matter of:

Aero-Tech Light Bulb Co.,
Respondent

)
)
) Case Number: 2010-CE-1012
)
)

ORDER

Issued: October 8, 2010

By the General Counsel, U.S. Department of Energy:

1. DOE has promulgated energy conservation standards for incandescent reflector lamps at 10 C.F.R. § 430.32.
2. DOE initiated a case on September 8, 2010, to pursue a civil penalty for violations of the compliance certification requirements at 10 C.F.R. § 430.62.
3. Respondent manufactures and/or privately labels incandescent reflector lamps, including basic models 75BR40/** (ULA 29), 100BR40/** (ULA 24), 120BR40/** (ULA 25), 100BR38/** (ULA 32), 150 BR 38/** (ULA 33), and 75BR38/**.
4. Based on the information gathered in this case, including Respondent's packaging, labeling, and marketing materials, which demonstrate that these models are marketed for rough or vibration service applications, I find that there was no violation of the regulations by Respondent in this case.
5. Accordingly, I conclude that the public interest would be served by dismissing this penalty action.
6. Therefore, **IT IS ORDERED** that, pursuant to Section 333 of the Energy Policy and Conservation Act, of 1975, as amended,¹ Case Number 2010-CE-1012 **IS DISMISSED**.

U.S. DEPARTMENT OF ENERGY

Scott Blake Harris
General Counsel

¹ 42 U.S.C. § 6303.
