

U.S. Department of Energy

1000 Independence Ave, SW
Washington, DC 20585

In the Matter of:

ASKO Appliances, Inc.

Case Number: 2010-SE-0601

NOTICE OF COMPLIANCE DETERMINATION

Issued on: September 8, 2010

On July 29, 2010, the Department of Energy (DOE) issued a Test Notice to ASKO Appliances, Inc. (ASKO) after DOE testing, performed as part of the ENERGY STAR verification program, indicated that ASKO's model D5122XXLB dishwasher exceeded the applicable Federal energy conservation standard.

In accordance with the test notice, DOE conducted energy consumption tests on four units of ASKO's model D5122XXLB dishwasher. The individual test results, indicated in the chart below, hovered around the federal standard—two units were slightly below the maximum standard, while two units were slightly above the maximum standard. Applying the statistical analysis set forth in DOE regulations, ASKO's model D5122XXLB dishwasher meets the federal energy standards for maximum energy use.

Serial number	Federal Standards		Test Results	
	Federal Maximum Energy Use (kWh/yr)	Federal Maximum Water Use (gallons/cycle/cu.ft)	Measured Energy Use (kWh/yr)	Measured Water Use (gallons/cycle/cu.ft)
101901960341	355	6.5	359	5.77
101801957967	355	6.5	353	5.69
101801957969	355	6.5	351	5.70
101901960340	355	6.5	358	5.80
MODEL RESULTS				

In accordance with its regulations, DOE has determined that ASKO's model D5122XXLB dishwasher complies with the applicable energy conservation standards. This case is now closed. Please provide Laura Barhydt with the address to which DOE can return the four units of ASKO's model D5122XXLB dishwasher.

If you have any questions, you may contact Laura Barhydt of my staff at (202) 287-5772.
