

Meeting Date: 3/25/20

Topic: DOE Pool Pump Motor Rule

Attendees:

Joseph Eaves, Lot Sixteen

Colin Hayes, Lot Sixteen

Daniel Simmons, Department of Energy

Daniel Cohen, Department of Energy

Lysia Bowling, Advisor to Daniel Simmons

Summary of Meeting:

Mr. Eaves shared with DOE staff that Regal Beloit is still in favor of DOE developing a nationwide federal standard for pool pump motors. A federal standard will ensure that all Americas are able to see energy savings from more advanced electric motors in pool pumps. The group also discussed whether the COVID-19 pandemic was having any impacts on the rulemaking process. DOE shared that they are still committed to announcing a rule for pool pump motors and the pandemic is having little to no impact on the rulemaking process. The call ended with Mr. Eaves once again expressing the need for a DOE rule as soon as possible.
