Subject: FW: Pending 2002 waivers

It looks like you are right on the first 2 cases, so we'll close them out. I'll fax you a copy of what we received from the field in W(I)02-004, so you can figure out what happened. Katie will try to track down the situation with W(A) 02-004 here at HQ.

Hope this will make sense on your end.
We have no record of W(A)-02-024. The contract, contractor, and date forwarded correspond to our waiver docket CH1108, W(A)-02-049 which was granted on 3-18-2003.
We have no record of W(A)-02-025. The contract, contractor, and date forwarded correspond to our waiver docket CH1118, W(A)-02-042 which was granted on 12-19-2002.
Perhaps these were somehow duplicated in HQ under two different HQ docket numbers?
S-98,035 is a CH case, but there is no record of W(I)-02-004. The computer invention database shows the invention was under a contract to Thermo Power, DE-FC36-97GO10134, and a SOC was forwarded to HQ on 7-12-2002. However, there is no waiver record entered. The case is assigned to Carol Williams, so I will have her pull the file to see what we can find. Looks like we didn't enter it in the waiver docket properly, but it also looks like we forwarded a SOC and petition to HQ last year. Maybe the file will help us tie this together.
The others are identified and I will have the responsible attorney get info to you.

W(I)02-004 has s# 98,035. The Petitioned is Andrew W. McClaine. The contract number s DE-FC02-97EE50483. It was faxed to us on 5/23/02. Mr. McClaine owns Safe Hydrogen LLL. Safe Hydrogen bought the rights to this invention from Thermo Power. I don't know who sent us the fax.

W(A)02-024 has contract number DE-FC26-02NT41421. The Petitioner is Universal Aggregates. Marksent it to us sometime after 4/26/02.

W(A)02-025 has contract number DE-FC26-02NT41218. The petitioner is General Motors. Mark sent it to us sometime after 6/11/02.
