

SUPPLEMENT TO LOAN GUARANTEE SOLICITATION ANNOUNCEMENT

FEDERAL LOAN GUARANTEES FOR ADVANCED NUCLEAR ENERGY PROJECTS

Solicitation Number: DE-SOL- DE-SOL-0007791

OMB Control Number: 1910-5134; OMB Expiration Date 11/30/2016

Announcement Type: Supplemental

Supplement Date: June 23, 2015

The above-referenced Loan Guarantee Solicitation Announcement (the “Solicitation”) is supplemented as set forth below (capitalized terms used herein and not otherwise defined have the meanings ascribed thereto in the Solicitation).

The following is inserted as a new Section IIC “Scope of Solicitation”:

The term “ nuclear power facilities” includes nuclear power projects and the associated nuclear reactor designs currently under NRC licensing review or under the NRC pre-application phase for certification, construction permit, or combined construction and operating license. These include nuclear reactors, small modular reactors, uprates, and upgrades. By implication, the category excludes projects involving nuclear material that do not generate, or facilitate the generation of, power. The term “advanced nuclear facilities for the ‘front-end’ of the nuclear fuel cycle” includes uranium conversion, uranium enrichment, and nuclear fuel fabrication projects.

For purposes of this Solicitation, neither category of eligible projects includes projects for the manufacturing or use of radioactive isotopes for industry, agriculture, or medicine.
