Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:

Description:

- B5.1** Actions to conserve energy, demonstrate potential energy conservation, and promote energy-efficiency that do not increase the indoor concentrations of potentially harmful substances. These actions may involve financial and technical assistance to individuals (such as builders, owners, consultants, designers), organizations (such as utilities), and state and local governments. Covered actions include, but are not limited to: programmed lowering of thermostat settings, placement of timers on hot water heaters, installation of solar hot water systems, installation of efficient lighting, improvements in generator efficiency and appliance efficiency ratings, development of energy-efficient manufacturing or industrial practices, and small-scale conservation and renewable energy research and development and pilot projects. The actions could involve building renovations or new structures in commercial, residential, agricultural, or industrial sectors. These actions do not include rulemakings, standard-settings, or proposed DOE legislation.
- A9** Information gathering (including, but not limited to, literature surveys, inventories, audits), data analysis (including computer modeling), document preparation (such as conceptual design or feasibility studies, analytical energy supply and demand studies), and dissemination (including, but not limited to, document mailings, publication, and distribution; and classroom training and informational programs), but not including site characterization or environmental monitoring.
- A11** Technical advice and planning assistance to international, national, state, and local organizations.

Rational for determination:

The County of Monterey, CA would use DOE funds for the following activity which is bounded by the signed SOW and is therefore categorically excluded:

Activity 1, Installation of Photovoltaic System to Service County of Monterey Laurel Yard Facilities.

The remainder of County of Monterey's activities are not included in this SOW and EF1 as they were CX'd at the time of the award, including Activity 2. Investment Grade Energy Audit for County Facilities; Activity 3. Public Energy Efficiency Education Program; Activity 4. Greenhouse Gas Inventory and Tracking System; and Activity 5. Energy Efficiency Ordinance and Incentive Development.

Any projects submitted for EECBG funding that fall outside the bounds of the signed SOW or any alteration to this activity that would cause it to fall outside the bounds of the signed SOW will require a separate NEPA determination review.
