Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:

Description:

A9 Information gathering (including, but not limited to, literature surveys, inventories, audits), data analysis (including computer modeling), document preparation (such as conceptual design or feasibility studies, analytical energy supply and demand studies), and dissemination (including, but not limited to, document mailings, publication, and distribution; and classroom training and informational programs), but not including site characterization or environmental monitoring.

Rational for determination:

Lake Region State College proposes to use federal funds to develop and launch an educational program for wind energy technician safety and health. This project will entail a full assessment of the OSHA requirements and safety hazards in the wind turbine industry.

This project will entail information gathering and research and development of OSHA and wind energy safety standards; therefore a CX A9 will apply.
