

U.S. Department of Energy Categorical Exclusion Determination Form

| Project Title NC-County Johnston NC Proposed Action or Project Description American Recovery and Reinvestment Act: At the Wastewater Treatment Plant: install dissolved oxygen controls, reprogram wetwell level controls for the tertiary filter pumps, install electric actuators on tertiary filter effluent lines, install power monitors on motors, install standby generator; at the Biosolids Processing Facility and Landfill: install timers or programmable logic controllers (PLC); at the Wastewater Flow Equalization Basin and Pumping Station a Landfill: install timers or PLC, install variable frequency drives on wastewater pumps; at the Water Treatment Plant: install power monitors on motors; at several of the wastewater repurpant tacilities repla existing interior and exterior lighting fixtures with high efficiency units and provide engineering services. Conditions: None Categorical Exclusion(s) Applied: B2.5, B5.1 *-For the complete DOE National Environmental Policy Act regulations regarding categorical exclusions, see Subpart D of 10 CF This action would not threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and including DOE and/or Executive Orders; require sting, construction, or major expansion of waste storage, disposal, recovery, or treatment facilities, but may include such categorically evoluded facilities (situst hazardous substances, pollutants, contaminan CERCLA-excluded petroleum and natural gas products that pre-exist in the environmental such that there would be uncontrolled ourpermitted releases; or adversely affect environmentally sensitive resources (including but not limited toos itseld in paragra B.(4)) of Appendix B to Subpart D of 10 CFR 1021). Furthermore, there are no extraordinary circumstances related to this action may affect the significance of the environmental effects of the action, this action is not "connected" to those listed in paragra B.(4) of Appendix B to Subpart D of 10 CFR 1021.) Furthermore, there are no extraordinary | Program or Field Office: | Fneray F | fficiency and Cons | ervation Block Grant Program | |

Furthermore, there are no extraordinary circumstances related to this action may affect the significance of the environmental effects of the action; this action is not "connected" to other actions with potentia significant impacts, is not related to other proposed actions with cumulatively significant impacts, and is not precluded | • | | | | |
| At the Wastewater Treatment Plant: install dissolved oxygen controls, reprogram wetwell level controls for the tertiary filter pumps, install electric actuators on tertiary filter effluent lines, install power monitors on motors, install standby generator; at the Biosolids Processing Facility and Landfill: install timers or programmable logic controllers (PLC); at the Wastewater Flow Equalization Basin and Pumping Station a Landfill: install timers or PLC, install variable frequency drives on wastewater pumps; at the Water Treatment Plant: install power monitors on motors; at several of the wastewater treatment facilities repla existing interior and exterior lighting fixtures with high efficiency units and provide engineering services. Conditions: None Categorical Exclusion(s) Applied: B2.5, B5.1 *-For the complete DOE National Environmental Policy Act regulations regarding categorical exclusions, see Subpart D of 10 CF This action would not: threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and including DOE and/or Executive Orders; require siting, construction, or major expansion of waste storage, disposal, recovery, or treatment facilities, but may include such categorically excluded facilities; disturb hazardous substances, pollutants, contaminant CERCLA-excluded petroleum and natural gas products that pre-exist in the environmental to those listed in paragra (ERCLA-excluded petroleum and natural gas products that pre-exist in the environmental to those listed in paragra (B.(4)) of Appendix B to Subpart D of 10 CFR 1021). Furthermore, there are no extraordinary circumstances related to this action may affect the significance of the environmental effects of the action; this action is not "connected" to other actions with potentia significant impacts, is not related to other proposed actions with cumulatively significant impacts, and is not precluded by 40 CFf 1506.1 or 10 CFR 1021.211. Based on my review of information conveyed to me and in my posse | Location: | County | Johnston | NC | |
| the tertiary filter pumps, install electric actuators on tertiary filter effluent lines, install power monitors on motors, install standby generator; at the Biosolids Processing Facility and Landfill: install timers or programmable logic controllers (PLC); at the Wastewater Flow Equalization Basin and Pumping Station a Landfill: install timers or PLC, install variable frequency drives on wastewater pumps; at the Water Treatment Plant: install power monitors on motors; at several of the wastewater treatment facilities repla existing interior and exterior lighting fixtures with high efficiency units and provide engineering services. Conditions: None Categorical Exclusion(s) Applied: B2.5, B5.1 *-For the complete DOE National Environmental Policy Act regulations regarding categorical exclusions, see Subpart D of 10 CF This action would not: threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and including DOE and/or Executive Orders; require siting, construction, or major expansion of waste storage, disposar, recovery, or treatment facilities, but may include such categorically excluded facilities; disturb hazardous substances, pollutants, contaminant CERCLA-excluded petroleum and natural gas products that pre-exist in the environment such that there would be uncontrolled ourpermitted releases; or adversely affect environmentally sensitive resources (including but limited to those listed in paragra B.(4)) of Appendix B to Subpart D of 10 CFR 1021). Furthermore, there are no extraordinary circumstances related to this action may affect the significance of the environmental effects of the action; this action is not 'connected' to other actions with potential significant impacts, is not related to other proposed actions with cumulatively significant impacts, and is not precluded by 40 CFf 1506.1 or 10 CFR 1021.211. Based on my review of information conveyed to me and in my possession (or attached) concerning the proposed action fits within the specified class(| Proposed Action or Project D | escription | | American Recovery and Reinve | estment Act: |
| *-For the complete DOE National Environmental Policy Act regulations regarding categorical exclusions, see Subpart D of 10 CF. This action would not: threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and including DOE and/or Executive Orders; require siting, construction, or major expansion of waste storage, disposal, recovery, or treatment facilities, but may include such categorically excluded facilities; disturb hazardous substances, pollutants, contaminant CERCLA-excluded petroleum and natural gas products that pre-exist in the environment such that there would be uncontrolled or unpermitted releases; or adversely affect environmentally sensitive resources (including but not limited to those listed in paragra, B.(4)) of Appendix B to Subpart D of 10 CFR 1021). Furthermore, there are no extraordinary circumstances related to this action may affect the significance of the environmental effects of the action; this action is not "connected" to other actions with potential significant impacts, is not related to other proposed actions with cumulatively significant impacts, and is not precluded by 40 CFF 1506.1 or 10 CFR 1021.211. Based on my review of information conveyed to me and in my possession (or attached) concerning the proposed action, as NEF Compliance Officer (as authorized under DOE Order 451.1B), I have determined that the proposed action is within the specified class(es) of action, the other regulatory requirements set forth above are met, and the proposed action is hereby categorically events. | the tertiary filter pumps, install motors, install standby gener programmable logic controlle Landfill: install timers or PLC Treatment Plant: install power | Ill electric actu ator; at the Bions ers (PLC); at the constall variate er monitors or | ators on tertiary filt osolids Processing ne Wastewater Flo- ole frequency drives n motors; at severa | er effluent lines, install power m Facility and Landfill: install time w Equalization Basin and Pumpi s on wastewater pumps; at the V I of the wastewater treatment fa | onitors on ers or ng Station at Vater cilities replace |
| *-For the complete DOE National Environmental Policy Act regulations regarding categorical exclusions, see Subpart D of 10 CF This action would not: threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and including DOE and/or Executive Orders; require siting, construction, or major expansion of waste storage, disposal, recovery, or treatment facilities, but may include such categorically excluded facilities; disturb hazardous substances, pollutants, contaminant CERCLA-excluded petroleum and natural gas products that pre-exist in the environment such that there would be uncontrolled of unpermitted releases; or adversely affect environmentally sensitive resources (including but not limited to those listed in paragra B.(4)) of Appendix B to Subpart D of 10 CFR 1021). Furthermore, there are no extraordinary circumstances related to this action may affect the significance of the environmental effects of the action; this action is not "connected" to other actions with potentia significant impacts, is not related to other proposed actions with cumulatively significant impacts, and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211. Based on my review of information conveyed to me and in my possession (or attached) concerning the proposed action, as NEP Compliance Officer (as authorized under DOE Order 451.1B), I have determined that the proposed action is hereby categorically experiences of action, the other regulatory requirements set forth above are met, and the proposed action is hereby categorically experiences. | Conditions: None | | | | |
| This action would not: threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and including DOE and/or Executive Orders; require siting, construction, or major expansion of waste storage, disposal, recovery, or treatment facilities, but may include such categorically excluded facilities; disturb hazardous substances, pollutants, contaminant CERCLA-excluded petroleum and natural gas products that pre-exist in the environment such that there would be uncontrolled of unpermitted releases; or adversely affect environmentally sensitive resources (including but not limited to those listed in paragra, B.(4)) of Appendix B to Subpart D of 10 CFR 1021). Furthermore, there are no extraordinary circumstances related to this action may affect the significance of the environmental effects of the action; this action is not "connected" to other actions with potential significant impacts, is not related to other proposed actions with cumulatively significant impacts, and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211. Based on my review of information conveyed to me and in my possession (or attached) concerning the proposed action, as NEP Compliance Officer (as authorized under DOE Order 451.1B), I have determined that the proposed action is hereby categorically exceptions. | | | | | |
| including DOE and/or Executive Orders; require siting, construction, or major expansion of waste storage, disposal, recovery, or treatment facilities, but may include such categorically excluded facilities; disturb hazardous substances, pollutants, contaminant CERCLA-excluded petroleum and natural gas products that pre-exist in the environment such that there would be uncontrolled of unpermitted releases; or adversely affect environmentally sensitive resources (including but not limited to those listed in paragra B.(4)) of Appendix B to Subpart D of 10 CFR 1021). Furthermore, there are no extraordinary circumstances related to this action may affect the significance of the environmental effects of the action; this action is not "connected" to other actions with potential significant impacts, is not related to other proposed actions with cumulatively significant impacts, and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211.
