Procurement Instrument Number NEPA Control Number CID Number 0

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:

Description:

B5.1 Actions to conserve energy, demonstrate potential energy conservation, and promote energy-efficiency that do not increase the indoor concentrations of potentially harmful substances. These actions may involve financial and technical assistance to individuals (such as builders, owners, consultants, designers), organizations (such as utilities), and state and local governments. Covered actions include, but are not limited to: programmed lowering of thermostat settings, placement of timers on hot water heaters, installation of solar hot water systems, installation of efficient lighting, improvements in generator efficiency and appliance efficiency ratings, development of energy-efficient manufacturing or industrial practices, and small-scale conservation and renewable energy research and development and pilot projects. The actions could involve building renovations or new structures in commercial, residential, agricultural, or industrial sectors. These actions do not include rulemakings, standard-settings, or proposed DOE legislation.

Rational for determination:

The County of Nassau is proposing to use \$3,723,100 EECBG funding to replace existing incandescent traffic lights and signals with new light emitting diodes (LED) lights and signals.

No new construction will occur and the action has been permitted through a Customer Installation Commitment with the New York Power Authority.

The proposed project is consistent with activities outlined in B5.1 "actions to conserve energy"; therefore, the project is categorically excluded from further NEPA review.
