

RL-721 REV 1	NEPA REVIEW SCREENING FORM	Document ID Number: DOE/CX-00034
I. Project Title: IDF Fence Installation		
II. Project Description and Location (including Time Period over which proposed action will occur and Project Dimensions - e.g., acres displaced/disturbed, excavation length/depth, etc.): <p>The proposed action is to install a fence to control access to the location, possibly encompassing the full boundary of the Integrated Disposal Facility (IDF). The fencing could range from single-wire to chain link, supported by t-posts. Signs would provide access information (e.g., points-of-contact).</p> <p>The fencing (approximately 8,000 linear feet) would be installed alongside currently existing roadway, in previously disturbed areas. No new cultural or biological review would be prepared for this activity. If any nesting birds (if not a nest, a pair of birds of the same species or a single bird that will not leave the area when disturbed) are encountered, or bird defensive behaviors (flying at workers, refusal to leave the area, strident vocalizations) are observed during the duration of activities, work would stop and appropriate mitigation measures would be developed and implemented.</p>
