**U.S. DEPARTMENT OF ENERGY
EERE PROJECT MANAGEMENT CENTER
NEPA DETERMINATION**

RECIPIENT: Indiana Office of Energy Development

STATE: IN

PROJECT TITLE : Program Year 2012 State Energy Program Formula Grants

Funding Opportunity Announcement Number	Procurement Instrument Number	NEPA Control Number	CID Number
DE-FOA-0000643	NT43163	GFO-0043163-001	

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:

Description:

A11 Technical advice and assistance to organizations

Technical advice and planning assistance to international, national, state, and local organizations.

A9 Information gathering, analysis, and dissemination

Information gathering (including, but not limited to, literature surveys, inventories, site visits, and audits), data analysis (including, but not limited to, computer modeling), document preparation (including, but not limited to, conceptual design, feasibility studies, and analytical energy supply and demand studies), and information dissemination (including, but not limited to, document publication and distribution, and classroom training and informational programs), but not including site characterization or environmental monitoring. (See also B3.1 of appendix B to this subpart.)

Rational for determination:

The U.S. Department of Energy (DOE) provided \$732,000 of federal funding to Indiana's Office of Energy Development (OED) under the DOE's Annually Appropriated State Energy Program (SEP) for 2012. The OED will match the federal funding with \$196,201 in state funds for a total of \$928,201.

The OED proposes to fund the following Market Titles:

Community Conservation Challenge:

This Market Title would promote energy efficiency and renewable energy through community-scale building retrofits in Indiana.

Policy, Planning and Administration:

This Market Title would ensure necessary management procedures are employed for effective coordination of state, local and federal energy programs.

Based on a review of the activities that would be funded under the above Market Titles, DOE has determined the projects that would be funded under these Market Titles will not significantly impact the human environment and they are categorically excluded from further NEPA review under CX A9 "information gathering" and CX A11 "technical advice." Any activities funded under the 2012 annual appropriations that involve ground-breaking activities, retrofits, or equipment purchase and/or installation are conditioned pending additional NEPA review.

NEPA PROVISION

DOE has made a conditional NEPA determination for this award, and funding for certain tasks under this award is contingent upon the final NEPA determination.

Insert the following language in the award:

You are restricted from taking any action using federal funds, which would have an adverse affect on the environment or limit the choice of reasonable alternatives prior to DOE/NNSA providing either a NEPA clearance or a final NEPA decision regarding the project.

Prohibited actions include:

Any activities funded under the 2012 annual appropriations that involve ground-breaking activities, retrofits, or

equipment purchase and/or installation are conditioned pending additional NEPA review.

This restriction does not preclude you from:

Activities involving administrative activities, technical advice, education, and outreach.

If you move forward with activities that are not authorized for federal funding by the DOE Contracting Officer in advance of the final NEPA decision, you are doing so at risk of not receiving federal funding and such costs may not be recognized as allowable cost share.

Note to Specialist :

DOE funding - \$732,000
