Proposed Action Title: COLORA - Cross-arm Replacement, Structure Nos. 12-3, 12-6

Program or Field Office: Western Area Power Administration, Desert Southwest Regional Office

Location(s) (City/County/State): Coolidge, Pinal County, AZ

Proposed Action Description:

Western plans to conduct cross arm replacements and interchange insulators at structures 12-3 and 12-6 on the COLORA 115-kV transmission line. The wood H-frame structures are located on State Land at Section 32, Township 5S, Range 10E, in the town of Coolidge, Pinal County, AZ.

Equipment used on site will include bucket truck, line truck, tracked dozer and crew trucks. Public access road to the structures will be from E. Cactus Forest Rd. to Structure 11-9. Overland travel within Western right-of-way will be required between Structure 12-3 to 12-6 due to erosion. No access road improvements or construction will be completed for this project. Handcut of creosotebush, yellow palo verde and chollas will be required approximately 50 ft. from one side of structure 12-6 to provide a level work space for equipment. No other plant species will be disturbed. The work will take approximately one week to complete.

The purpose of the work is to replace wood cross arms which have become damaged or broken. The project is necessary to provide for the safe and continuous operation of the bulk electrical system.

Categorical Exclusion(s) Applied:

B1.3 - Routine maintenance

For the complete DOE National Environmental Policy Act regulations regarding categorical exclusions, including the full text of each categorical exclusion, see Subpart D of 10 CFR Part 1021.

Regulatory Requirements in 10 CFR 1021.410(b): (See full text in regulation)

The proposal fits within a class of actions that is listed in Appendix A or B to 10 CFR Part 1021, Subpart D.

To fit within the classes of actions listed in 10 CFR Part 1021, Subpart D, Appendix B, a proposal must be one that would not: (1) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders; (2) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), but the proposal may include categorically excluded waste storage, disposal, recovery, or treatment actions or facilities; (3) disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases; (4) have the potential to cause significant impacts on environmentally sensitive resources, including, but not limited to, those listed in paragraph B(4) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those listed in paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B.

There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal.

The proposal has not been segmented to meet the definition of a categorical exclusion. This proposal is not connected to other actions with potentially significant impacts (40 CFR 1508.25(a)(1)), is not related to other actions with individually insignificant but cumulatively significant impacts (40 CFR 1508.27(b)(7)), and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211 concerning limitations on actions during preparation of an environmental impact statement.

Based on my review of the proposed action, as NEPA Compliance Officer (as authorized under DOE Order 451.1B), I have determined that the proposed action fits within the specified class(es) of action, the other regulatory requirements set forth above are met, and the proposed

action is hereby categorically excluded from further NEPA review. NEPA Compliance Officer:

Date Determined: 9-23.13

Application of Categorical Exclusions (1021.410)	Disagree	Agree	Unknown
(b)(1) The proposal fits within a class of actions that is listed in		X	
appendix A or B to subpart D.			
(b)(2) There are no extraordinary circumstances related to the		X	
proposal that may affect the significance of the environmental			
effects of the proposal, including, but not limited to, scientific			
controversy about the environmental effects of the proposal;			
uncertain effects or effects involving unique or unknown risks; and			
unresolved conflicts concerting alternate uses of available resources			
(b)(3) The proposal has not been segmented to meet the definition		X	
of a categorical exclusion. Segmentation can occur when a proposal			
s broken down into small parts in order to avoid the appearance of			
significance of the total action. The scope of a proposal must include			
the consideration of connected and cumulative actions, that is, the			
proposal is not connected to other actions with potentially			
significant impacts (40 CFR 1508.25(a)(1), is not related to other			
actions with individually insignificant but cumulatively significant			
impacts (40 CFR 1508.27(b)(7)), and is not precluded by 40 CFR			
1506.1 or § 1021.211 of this part concerning limitations on actions			
during EIS preparation.			
B. Conditions that are Integral Elements of the Classes of Actions in	NO	YES	UNKNOWN
Appendix B. :			
(1) Threaten a violation of applicable statutory, regulatory, or	Х		
permit requirements for environment, safety and health, or			
similar requirements of DOE or Executive Orders.			
(2) Require siting and construction or major expansion of waste	X		
storage, disposal, recovery, or treatment facilities (including			
incinerators), but the proposal may include categorically			
excluded waste storage, disposal, recovery, or treatment actions			
or facilities;			
(3) Disturb hazardous substances, pollutants, contaminants, or	X	-	
CERCLA-excluded petroleum and natural gas products that			
preexist in the environment such that there would be			
uncontrolled or unpermitted releases;			
(4) Have the potential to cause significant impacts on	X		-
environmentally sensitive resources. An environmentally			
sensitive resource is typically a resource that has been identified			
as needing protection through Executive Order, statue, or			
regulation by Federal, state, or local government, or a federally			
recognized Indian tribe. An action may be categorically excluded			
if, although sensitive resources are present, the action would not			
have the potential to cause significant impacts on those			
resources (such as construction of a building with its foundation			
well above a sole-source aquifer or upland surface soil removal			
on a site that has wetlands). Environmentally sensitive		1
