Categorical Exclusion Determination

Bonneville Power Administration Department of Energy

Proposed Action: FY17 Wood Pole Replacements – Spokane District (WA and ID)

Project No. (if applicable): 3522

Project Manager: Sarah Hall

Location: Stevens, Ferry, Spokane and Pend Oreille Counties, Washington and Bonner County, Idaho

Categorical Exclusion Applied (from Subpart D, 10 C.F.R. Part 1021): B1.3 Routine Maintenance

Description of the Proposed Action: BPA proposes to perform in-kind replacement of 38 wood pole structures and associated structural/electrical components (e.g. cross arms, insulators, guy anchors, etc.) along several transmission lines. Replacement poles would be placed in existing holes following removal of current pole structures, and may be re-augered to assure proper depth placement. Minor maintenance along existing access road prisms and landings is scheduled to be performed where necessary to facilitate safe access. No unauthorized construction activities would occur in any water body including streams, ponds, or wetlands. Access road maintenance may include blading, shaping, rocking, and construction of waterbars and drain dips. Refer to the table below for project locations.

Transmission Line	Structure	TRS Info	County, State
Addy-Cusick No. 1	13/3, 13/4	T33N R41E SEC21	Stevens, WA
	15/2	T36N R37E SEC14	Ferry, WA
	19/4	T36N R37E SEC29	Ferry, WA
	31/1	T36N R35E SEC9	Ferry, WA
Calvilla Danublia No. 1	41/3	T37N R33E SEC35	Ferry, WA
Colville-Republic No. 1	43/1, 43/4, 43/6	T37N R33E SEC33	Ferry, WA
	43/8	T37N R33E SEC32	Ferry, WA
	44/1, 44/4, 44/5	T36N R33E SEC3	Ferry, WA
	44/6, 44/7, 44/8, 44/9, 44/10, 44/11, 44/12	T36N R33E SEC4	Ferry, WA
	5/1	T26N R44E SEC4	Spokane, WA
Green Bluff Tap	6/2	T27N R44E SEC28	Spokane, WA
	7/5	T27N R44E SEC21	Spokane, WA
Sacheen-Albeni Falls No. 1	2/2	T31N R44E SEC21	Pend Oreille, WA

Transmission Line	Structure	TRS Info	County, State
	24/10	T57N R2W SEC30	Bonner, ID
Albeni Falls-Sand Creek No. 1	25/2, 25/5	T57N R2W SEC19	Bonner, ID
	25/8, 25/9	T57N R2W SEC20	Bonner, ID
	26/4, 26/6	T57N R2W SEC17	Bonner, ID
	28/8	T57N R2W SEC10	Bonner, ID
	29/2, 29/10, 30/1	T57N R2W SEC3	Bonner, ID
Bronx-Sand Creek No. 1	10/2	T57N R2W SEC3	Bonner, ID
Priest River Tap	1/6, 1/7	T56N R4W SEC20	Bonner, ID

2

The proposed action would allow safe and timely access to the transmission lines which would help reduce outage times and maintain reliable power in the region. All work would be in accordance with the National Electrical Safety Code and BPA standards.

Findings: In accordance with Section 1021.410(b) of the Department of Energy's (DOE) National Environmental Policy Act (NEPA) Regulations (57 FR 15144, Apr. 24, 1992, as amended at 61 FR 36221-36243, July 9, 1996; 61 FR 64608, Dec. 6, 1996, 76 FR 63764, Nov. 14, 2011), BPA has determined that the proposed action:

- (1) fits within a class of actions listed in Appendix B of 10 CFR 1021, Subpart D (see attached Environmental Checklist);
- (2) does not present any extraordinary circumstances that may affect the significance of the environmental effects of the proposal; and
- (3) has not been segmented to meet the definition of a categorical exclusion.

Based on these determinations, BPA finds that the proposed action is categorically excluded from further NEPA review.

Attachment(s): Environmental Checklist

Categorical Exclusion Environmental Checklist

This checklist documents environmental considerations for the proposed project and explains why the project would not have the potential to cause significant impacts on environmentally sensitive resources and would meet other integral elements of the applied categorical exclusion.

Proposed Action: FY17 Wood Pole Replacement – Spokane District (WA and ID)

Project Site Description

Proposed routine maintenance activities would be conducted along various transmission lines located in Washington (Addy-Cusick No. 1, Colville-Republic No. 1, Green Bluff Tap and Sacheen-Albeni Falls No. 1) and in Idaho (Albeni Falls-Sand Creek No. 1, Bronx-Sand Creek No. 1 and Priest River Tap). All proposed activities would be performed in the existing transmission line right-of-ways and access road easements which are located in rural, non-developed areas and/or in rural, agricultural areas.

Evaluation of Potential Impacts to Environmental Resources

	Environmental Resource Impacts	No Potential for Significance	No Potential for Significance, with Conditions		
1. Historic and Cultural Resources					
	Explanation:				
•	 maintenance performed would be limited to the existing road prism. Landing construction, if needed, would be limited to an area not to exceed 20-feet wide by 60-feet long at each structure proposed for replacement. 				
2.	Geology and Soils				
	<u>Explanation</u> : Localized soil disturbance would occur during wood pole replacements, landing improvements and access road maintenance activities. Standard construction erosion control measures would be utilized as necessary.				
	Plants (including federal/state special-status species)				
	Explanation: No federal/state special-status plants	s present.			

4.	Wildlife (including federal/state special-status species and habitats)				
	Explanation: No federal/state special-status species prese	nt.			
5.	Water Bodies, Floodplains, and Fish (including federal/state special-status species and ESUs)				
	Explanation: Listed and resident fish species may inhabit so various transmission lines. Project activities are not plann and resident fish species; therefore, there would be "No E habitat.	ed near water resources co	ontaining listed		
6.	Wetlands				
	Explanation: At locations adjacent to wetlands, erosion control devices would be utilized to p sedimentation of wetlands during proposed project activities; therefore, there would be a "N Effect" on wetland habitat.				
7.	Groundwater and Aquifers				
	Explanation: No use of groundwater proposed. Maximum below ground surface.	n depth of disturbance wou	ld be 12 feet		
8.	Land Use and Specially Designated Areas				
	Explanation: No change in land use. No specially designat	ed areas.			
9.	Visual Quality				
	Explanation: All work would be performed within existing Replacement of wood poles and associated components v location.		•		
10.	Air Quality				
	Explanation: Small amount of dust and vehicle emission d	uring construction activity.			
11.	Noise				
	Explanation: Temporary construction noise during dayligh transmission line would not change.	t hours. Operational noise	of		
12.	Human Health and Safety				
	Explanation: The proposed action would allow safe and ti would help reduce outage times and maintain reliable pow	-	sion line which		

6

Evaluation of Other Integral Elements

The proposed project would also meet conditions that are integral elements of the categorical exclusion. The project would not:

Threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders.

Explanation, if necessary:

Require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators) that are not otherwise categorically excluded.

Explanation, if necessary:

Disturb hazardous substances, pollutants, contaminants, or CERCLA excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases.

Explanation, if necessary:

Involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those of the Department of Agriculture, the Environmental Protection Agency, and the National Institutes of Health.

Explanation, if necessary:

Landowner Notification, Involvement, or Coordination

Description: BPA Realty personnel would perform landowner notifications 30-days prior to project initiation and any concerns regarding proposed transmission line maintenance activities would be addressed.

Based on the foregoing, this proposed project does not have the potential to cause significant impacts on any environmentally sensitive resources.
