## NATIONAL ENVIRONMENTAL POLICY ACT (NEPA) ENVIRONMENTAL EVALUATION NOTIFICATION FORM

To be completed by "Applicant," i.e., organization with responsibilities for a "Federal action" involving application to DOE for a permit, license, exemption or allocation, or other similar actions. For assistance with this Form, refer to "Instructions for Preparing ISC-CH F-560, Environmental Evaluation Notification Form."

Solicitation/Award No. (if applicable): DE-SC0021565						
Organization Name: Reaction Engineering International						
Proposed Action Title: Cloud-based High-Performance Computing Decision-Making Software for Carbon Sequestration						
Total DOE Funding/Total Funding: \$249,864.77						
I. <u>Project Description</u> : (Use explanation pages if additional space is required)						
A. <u>Proposed Project/Action (if applicable, delineate Federally funded/Non-Federally funded portions)</u>						
REI and the project team will deliver a next-generation, cloud-based decision-making software platform, which integrates the wide variety of tools available into a single, easy-to-use application with a web-based user interface, with capabilities to evaluate and						

easy-to-use application with a web-based user interface, with capabilities to evaluate and optimize project planning, costs, risks, and uncertainty. A key element of this unified application will be detailed High-Performance-Computing (HPC) modeling of the underground CO2 reservoirs. The software will be sold using a software-as-a-service (SaaS) model where users pay for access to the website and corresponding simulation engine. The competitive advantage of our product will be its ease-of-access, ease-of-use, and the enhanced modeling capabilities that will be phased in by the team long-ter

		Yes	ľ	1
B.	Would the project proceed without Federal funding?			v

If "yes," use explanation page.

II. <u>Description of Affected Environment</u>: (Use explanation pages if additional space is required)

The work will involve computer modeling and software development. All these activities will be performed by the team members within their existing office environments and work spaces.
