

NOTICE OF AVAILABILITY

The U.S. Department of Energy (DOE) has issued a Finding of No Significant Impact (FONSI) based on completion of an Environmental Assessment (EA) to describe and evaluate the potential environmental impacts associated with the:

**Frito Lay Biomass Boiler Project
Beloit, Wisconsin (DOE/EA 1861)**

DOE's Golden Field Office has determined that providing funding under the *American Recovery and Reinvestment Act of 2009* to support final design, construction, and operation of a biomass boiler at Frito Lay facilities in Beloit, Wisconsin, would not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the *National Environmental Policy Act* (NEPA). The FONSI and EA are available for review on the DOE Golden Field Office and DOE NEPA websites:
